This document contains statements about expected future events and financials of Veritas Finance Limited ("The Company"), which are forwardlooking. By their nature, forward-looking statements require the Company to make assumptions and are subject to inherent risks and uncertainties. There is a significant risk that the assumptions, predictions and other forward-looking statements may not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as several factors could cause assumptions, actual future results and events to differ materially from those expressed in the forward-looking statements. Accordingly, this document is subject to the disclaimer and qualified in its entirety by the assumptions, qualifications and risk factors referred to in the Management Discussion and Analysis section of this Annual Report.

India's journey towards a USD 5 trillion will be considerably shaped by the ascending contribution of its semi-urban and rural regions.

India's financial inclusion has improved in recent years, but is still far behind advanced countries of the world. This is due to low penetration of banking and financial services in semi-urban and rural areas. At Veritas, we are committed to bridge this gap and bring small businesses and individuals within the ambit of formal channels of financing.

For over a decade, we are addressing the financial requirements of underserved and underbanked MSMEs and individuals by providing them access to credit. MSMEs are the real engines of India's growth story and we are dedicated to help them scale their operations through faster and hassle-free disbursement of loans.

Our business model bridges the large credit gap that exists for the under-banked MSME space in India. The vision of our founder and the experience and expertise of our leadership team have enabled us to grow profitably and sustainably. We are further strengthening our technology backbone, underwriting and risk governance to remain resilient and focused on growth.

The sustained faith and support of our investors have helped us strengthen our Balance Sheet and fund our growth ambitions.

As we look forward to the next decade of growth and transformation, we look forward to the encouragement and support of all our customers, partners, employees, investors and Board of Directors.

About Veritas

Enabling financial empowerment for decades

Since inception in 2015, Veritas Finance Limited (formerly known as Veritas Finance Private Limited) is focused on meeting the evolving financial requirements of the Micro, Small and medium Enterprises (MSMEs) in India.

At Veritas, we act as a key catalyst of financial empowerment for a vast majority of people, especially those at the lower end of the socio-economic pyramid, who have remained underserved for decades.

Our business is run by professionals with rich experience in the financial services industry, making credit available to the last-mile citizens and making a positive impact on the lives of millions of Indians.

Providing Need Based Credit Solutions

Our strong on-ground presence provides simple, accessible and need-based credit solutions that help micro businesses scale their operations and geographic presence.

Our offerings help borrowers in the unorganised sector access working capital, expand operations and create better livelihoods. Guided by a customer-first philosophy, we ensure high levels of engagement and support at every step of the credit journey, right from loan origination to disbursement and repayment.

Sound credit assessment processes, quick turnaround times and flexible repayment options position us as a reliable financial partner. At Veritas, trust, inclusion and empowerment define our approach to provide financial services for India's Micro, Small and Medium Enterprises.

Vision

To be recognised by our fairness, responsible approach and service quality as the most admired company in the inclusive financing space by all stakeholders.

Financial Solutions

Diversifying our offerings across the decade

We offer an array of loans targeting different income groups to accelerate financial inclusion and bring more people into the economic mainstream.

Rural Business Loans:

Our Rural Business Loans comprise small business loans and home construction loans. Our primary customer base for this business comprises borrowers with a monthly income ranging between INR 25,000 - INR 80,000 and with limited or no prior formal credit history.

Affordable Home Loans:

We offer secured housing loans to borrowers primarily located in Tier-1 and Tier-2 cities, with loan tenures ranging from five to fifteen years for affordable housing purchases or construction. As such, our primary customers in our home loans business comprises low income self-employed and salaried borrowers and non-resident Indians. Self-occupied residential property of the borrower is generally provided as

collateral for such loans.

Used Commercial Vehicle Loans:

Since March 2024, we offer secured used commercial vehicle loans to borrowers of semi-urban and rural regions in India. These loans usually have tenures of three years and are secured by a hypothecation charge over the vehicle. Our used commercial vehicle loans generally have small and light commercial vehicles of the borrower as collateral.

Working Capital Loans (Unsecured):

We offer unsecured short-term working capital loans to MSMEs in urban and semiurban areas. These loans range from one to three years (with weekly repayment instalment schedules). Our primary customer base for this business comprises shopkeepers, restaurant owners, hardware store owners and other business owners with daily cash flows and prior credit history.

PROMOTING GENDER EQUITY

As part of our commitment to promoting gender equity, we have also introduced loans specifically targeted at women entrepreneurs for augmenting their business and livelihoods.

10 Glorious Years

Unveiling our remarkable journey over the years

Over the years, we have evolved in step with changing times, expanding our offerings to retail customers and enabling their financial empowerment.

Competitive Advantages

Staying ahead of the curve

Over the past decade, Veritas Finance has built a robust foundation anchored in trust, customer centricity and a deep understanding of MSME lending. Our core strengths continue to evolve, helping us deliver tailored retail credit solutions, scale our presence and empower underserved communities across India.

Specialised focus on MSMEs

Exclusive lending to Micro, Small and Medium Enterprises (MSMEs), backed by deep market knowledge and strong borrower relationships.

Customer-first philosophy

Personalised service approach with doorstep delivery of credit, high-touch engagement and strong grievance redressal mechanisms.

Pan-India presence with a local approach

Growing branch network across 10 states and 1 Union Territory, supported by locally recruited teams familiar with regional markets.

Disciplined underwriting and risk management

Robust credit assessment framework and conservative provisioning policies ensure strong asset quality.

Technology-led scalability

Investments in digital tools and mobility solutions enhance customer onboarding, credit delivery and operational efficiency.

Strong governance and leadership

Guided by an experienced Board and professional management with a deep commitment to financial inclusion and sustainable growth.

SHAPED BY RURAL INSIGHTS

Our strong rural focus has also equipped us with domain knowledge regarding the characteristics of local markets and prospective borrowers, enhancing our ability to tailor our products and services accordingly.

Business Model

Innovative solutions and technology integration

As we mark a decade of dedicated service, we continue to harness the power of technology to transform lending for India's micro and small enterprises. Our digitally driven and data-backed operating model is integral to our growth strategy, enabling scalable operations, improved risk management and a seamless credit experience to our borrowers.

Digital lending journey

We have adopted a technology-led approach that automates the entire loan lifecycle, from sourcing and credit underwriting to disbursal and collections.

- 100% digital and paperless sourcing and underwriting, ensuring speed and accuracy in loan processing
- OCR-driven KYC for seamless identity verification
- AI/ML-based credit scorecards to enhance underwriting precision and risk profiling
- E-signature-enabled documentation for faster and contactless execution
- Fully digital disbursal of loans, improving turnaround time
- Nearly 90% of collections processed through UPI and e-NACH mandates, ensuring convenience and traceability

Advanced Underwriting and Risk Models

Our proprietary credit scorecard leverages 400+ borrower data points and employs machine learning to assign dynamic risk scores. These are integrated with our rule-engine-based credit workflows to determine pricing and approval authority. This digitised framework supports real-time decision-making while retaining the 'high-touch' human engagement model that defines our field operations.

Smart Collections with Predictive Insights

Veritas has implemented predictive algorithms to anticipate potential defaults and uses tools like dynamic QR codes and WhatsApp-enabled UPI reminders to streamline collections. All repayments are digitally acknowledged with SMS-based receipts, enhancing transparency and trust with borrowers.

Data-Driven Decision Support

A central data lake architecture collates information from across systems and powers dashboards accessible across all management levels, facilitating daily performance monitoring and enabling proactive interventions.

Infrastructure

We operate on a hybrid on-premise and multi-cloud IT infrastructure, supported by ISO 27001:2022 certified data security protocols. Real-time cloud backups and automated disaster recovery systems ensure business continuity and protection from cyber threats.

Digital Access

Our mobile application, available in seven regional languages, enables borrowers to manage EMIs, view loan details and raise queries using voice messages ensuring accessibility for rural customers. We are also piloting self-onboarding and paperless execution tools to improve borrower experience and expand our outreach.

Human Assets

Driving transformation with a people-first strategy

Our human assets remain at the heart of everything we do. Over the years, we have built a diverse, skilled and passionate workforce dedicated to supporting India's micro and small businesses.

Our people strategy at Veritas is anchored in inclusivity, continuous development, strong engagement and recognition of performance. Our on-ground presence is strengthened by teams that have deep knowledge of the markets and the customers we serve.

We combine digital efficiency with human interaction to build long-term customer relationships and drive responsible lending. We are proud to be certified as a Great Place to Work for 2024 by the Great Place to Work® Institute, a recognition of our employee-first culture and inclusive workplace practices.

7,796

Full-time professionals

3,415

Sales Team (43.80% of total workforce)

Building Capability through Continuous Learning

At Veritas Finance, we believe that strong field capability is the foundation of responsible lending. Our sales and credit personnel undergo rigorous training that equips them with the skills to assess borrowers using practical, on-ground indicators such as inventory levels, customer footfall and transaction patterns.

To ensure future-readiness, we also invest in the continuous development of our mid-level and senior employees through structured leadership training programmes. These are designed to enhance decision-making, team management and strategic thinking capabilities, thereby creating a strong leadership pipeline to support our growth in the years ahead.

Performance and Recognition

To attract and retain high-performing talent, Veritas Finance offers a robust performance and rewards framework. This includes:

- Performance-linked incentives for sales and collections teams
- Employee Stock Option Schemes (ESOS)
- Quarterly rewards and recognition programmes at the branch level
- Allowances for vehicles for eligible roles
- Retention bonuses to support long-term employee engagement and stability

Engagement and Communication

At Veritas, we aim to nurture a culture of open dialogue, transparency and continuous engagement across all levels of the organisation. We have established multiple channels to encourage two-way communication and keep employees informed and involved.

Through our in-house grievance redressal platform, Hot Line, employees can voice

concerns securely and receive timely resolutions. Our quarterly newsletter, Livewire, keeps teams updated on internal developments, achievements and people-centric initiatives. Additionally, we use digital posters and communication aids across branches to raise awareness about employee benefits, policies and workplace updates.

Corporate Social Responsibility (CSR)

Committed to Meaningful Change

At Veritas Foundation, we believe that true progress lies in building a stronger, more equitable society. Our CSR efforts continue to focus on education, empowerment and infrastructure, creating environments where individuals and communities can thrive. Through targeted initiatives across Tamil Nadu, we are addressing critical needs and building a future of opportunity.

Renovation of Government High School, Ladapuram

As part of the Tamil Nadu Government's Namma School Namma Oru Palli (NSNOP) initiative, Veritas Foundation undertook the comprehensive renovation of the Government High School in Ladapuram, Perambalur District. With an investment of INR 2.15 Crores, the school now stands as a safer, cleaner and more inspiring space for its students. The project was inaugurated on March 5, 2025, by Ms. Grace Pachuaui, I.A.S., District Collector of Perambalur.

Chairman's Message

Our strategic priorities are anchored in the balance between scale and control, growth and governance and innovation and stability. We are focused on broadening our product portfolio, deepening our distribution reach and strengthening our institutional capabilities in a way that allows us to stay agile in a dynamic environment.

Raj Vikash Verma

Chairman and Non-Executive
Independent Director

Dear Shareholders,

It is a great honour to address you for the first time as Chairman of Veritas Finance. Stepping into this role at such a defining moment in the company's journey is both a privilege and a responsibility, I deeply value.

I am pleased to share that this Annual Report 2024-25 marks a year of strong progress and the beginning of an important new chapter as we prepare to enter the public markets and expand the Company's footprint across India's underserved financial landscape. I take this opportunity to reflect on the values that define us, the opportunities that lie ahead and the collective commitment that will guide us forward.

What Drives Us

At Veritas Finance, our Mission is to make a difference and create a positive impact in the lives of informal customers of MSMEs through sustainable financing solutions. Our Vision is to aspire to establish Veritas as a model Company, respected and most admired in the field of inclusive finance, recognised for fairness, responsibility and service quality. These principles have guided us since our inception in 2015, helping us serve communities often overlooked

by traditional financial institutions. Over the past decade, we have built a wide distribution network across ten states and union territories, providing small loans, home loans and vehicle loans, among others.

FY 2025 has seen us reinforce these values by expanding our reach across rural and semi-urban India, tailoring products to meet local enterprise needs and building trust-based relationships at the grassroots level. We have successfully impacted the lives of around 2,11,000 people and are seeking to bridge the demand/supply gap even further. This alignment between our Mission and our execution will continue to be our greatest strength.

Performance and Progress

Despite global macroeconomic uncertainties, the Indian economy maintained its momentum, and so did we. As of March 31, 2025, our Assets Under

Loan stood at INR 7,349 Crores, supported by huge disbursements and a growing customer base of entrepreneurs, consciously promoted and served by us in view of their huge potential to serve the broader economy. We expanded our physical presence across over 10 states and 1 union territory, powered by a purpose and passion-driven, strong employee base that is committed to our mission.

Our profitability has remained robust, with Profit After Tax reaching INR 292.19 Crores, while asset quality and compliance standards have only improved. This performance reflects the strategic and operational maturity Veritas has achieved over the past nine years.

Strategic Priorities and Growth Outlook

As we look ahead, we see the NBFC sector entering a phase of greater responsibility and sharper focus on the growth of the economy, with the NBFCs playing a definitive role in meeting the credit demands in the economy. With deeper credit penetration, stronger regulatory frameworks and more sophisticated risk and technology practices emerging across the industry, the opportunity for Veritas has never been more promising. The MSME financing space, in particular, stands at the cusp of huge growth and expansion as this market segment continues to be grossly underserved, and far from saturation, yet full of potential and promise. This dichotomous challenge is well recognised by Veritas, which the Company will seek to address through a clarity of purpose, strategic vision and consistency in execution.

As an organization, we remain deeply committed to fostering gender diversity and inclusivity – both within Veritas and across the communities we serve. We believe that empowering women and underrepresented groups is vital to driving sustained inclusive economic progress. While as at March 31, 2025, women borrowers hold around 14 % of our total loan portfolio, our 'Dhanasakthi' loan product launched exclusively for women in November 2023, stands as a fitting testament to this commitment. Since its roll-out, more than 2,000 deserving women entrepreneurs have been granted Working Capital facilities enabling them to gain financial independence and build resilient businesses. In parallel, we are also

increasingly focused on embedding climate-conscious practices into our operations and lending approach. As we look ahead, green lending and environmentally responsible financing will be integral to our strategy as we align growth with sustainability and resilience.

At Veritas, we are building for the long term. Our strategic priorities are anchored in the balance between scale and control, growth and governance and innovation and stability. We are focused on broadening our product portfolio, deepening our distribution reach, and strengthening our institutional capabilities in a way that allows us to stay agile in a dynamic and ever-evolving environment. We are also in the process of formalising our ESG roadmap, as I believe sustainability and stakeholder accountability will increasingly define the success of financial institutions in the years to come.

Together Towards Purpose

I wish to express my deep appreciation to all our stakeholders, our Board, investors, employees, customers and partners, for their trust and unwavering belief in our vision. As we step confidently towards becoming a listed company, we remain resolute in our commitment to delivering value through financial inclusion and institutional integrity.

Together, let's keep building not just a profitable enterprise, but a purposeful one—an institution rooted in resilience, relevance, and ambition. One that does more than just chase market share, it serves the aspirations of real India.

With Regards,

Raj Vikash Verma

Chairman and Non-Executive

Managing Director and CEO's Message

Our Loan book grew by 28.39% to INR 7,349 Crores, driven by disbursements of INR 3,933 Crores.

D. Arulmany

Managing Director and CEO

Dear Shareholders,

As I sit to write the letter for this year, I reflect on the journey of Veritas since inception. It has been exciting 10 years. Ten years of growth. Ten years of transformation. Ten years of impact. Ten years of making a difference. Ten years filled with purpose and passion.

In 2015, Veritas was merely an idea. An idea to make a positive impact in million households in Rural India. An idea that has found acceptance with marquee investors. An idea that has already impacted over 200000 customers. An idea that is now shared by over 8000 employees.

Guided by our eminent board, supported by marquee investors and lenders, Veritas over the last ten years has meticulously and methodically given shape to the vision and reached out to more than 438 branches across ten states. Today, Veritas serves the financial needs of diversified segments. With products like rural business loans, affordable housing loans, used commercial vehicle loans and working capital loans, we cover a wide range of rural India's financial needs.

While our Annual Report may reflect our growth in numbers, it may not fully capture the obstacles and headwinds we faced along the way. It is our prudence, perseverance, concern for our customers, and care for our employees that helped us overcome all the adversities and uncertainties. We chose to place faith over fear, conviction over scepticism. Thus, in the face of adversity, we have remained resilient, constantly adapting to the ever-changing environment while continuing to pursue our journey unfazed.

During this decade, India's economy also remained resilient with steady GDP growth, despite the impact of various macro events like demonetization, GST implementation, Liquidity crisis, COVID black swan crisis etc. Not only it remained resilient, the Government's thrust on building a robust digital infrastructure has fast tracked the financial inclusion initiatives. This landscape offers NBFCs like ours, particularly those serving micro and small enterprises, a unique opportunity to bridge credit gaps faster and foster grassroots entrepreneurship.

Operational and Financial Highlights

After witnessing reasonably strong and vibrant growth post COVID, the macro environment remained subdued during the last year. The year which started with elections and geopolitical disruptions continued to be suppressed right through. While we did see some signs of stability in the last quarter, we are yet to see definitive signals of the strong revival of the economy.

Despite a difficult environment, I am happy to convey that your company has delivered a strong and broad-based performance across key operational and financial indicators. Our Loan book grew by 28.39% to INR 7,349 Crores, driven

by disbursements of INR 3,933 Crores, a 6.23% increase from the previous year. We reported a Profit After Tax (PAT) of INR 292 Crores, up from INR 245 Crores in FY 2023-24, reflecting both scale and efficiency gains. Our customer base expanded to 2.11 lakhs, a significant increase from 1.76 lakhs last year, highlighting our growing relevance among microenterprise borrowers.

While our secured business loan and affordable housing loan segment continued to show resilient portfolio behaviour, we witnessed stress in certain urban pockets of short-term working capital loans. Some cash starved urban shopkeepers fell prey to the easy availability of digital loans at significantly higher rate of interest and found it difficult to service the loans and overcome the stress. This had an impact on our repayments as well. Following this, we have made certain major changes to the product offering and are confident that we will see a significant turnaround in this segment in the coming months.

I am also delighted to report that used commercial vehicle loans completed one full year of operations and continued to grow at a steady pace and crossed Loan book of INR 300 Crores at the end of March 25. We see a huge opportunity in this segment and the experience of the team, and the distribution reach we have established will help us build a strong portfolio in coming months.

Technology and Operational Excellence

In FY 2024-25, we further advanced our digital transformation to enhance operational efficiency, customer experience and risk management. Our zero-data-entry onboarding model, powered by OCR tools and multilingual mobile apps, enables fully paperless loan origination, e-KYC, underwriting and disbursement. We achieved 100% digital disbursement, with over 89% of secured loan collections processed via UPI, e-NACH or dynamic QR codes, improving turnaround times and service quality.

Additionally, we equipped our teams with real-time dashboards to monitor key performance metrics such as collection efficiency and loan rejection rates.

Our enhanced cloud infrastructure, cybersecurity and disaster recovery systems ensure operational resilience. With ISO 27001:2022 certification and regular audits, we are well-positioned to scale new products like vehicle finance with greater speed and control.

Strategic Roadmap and Vision 2028

As we complete our 10th year and enter the 11th, we also realise that we are very close to reaching a significant milestone of INR 10,000 Crores Loan book. All our products are on a strong growth trajectory, and we are committed to building a robust and diversified company, admired for its values, resilience and contribution to India's economy.

Our growth strategy remains anchored in five strategic pillars: expanding in underpenetrated markets with controlled geographic focus; diversifying our portfolio through scalable offerings like affordable Housing Loans and used commercial vehicle loans; investing in people through a value-driven culture; embedding technology and data-led processes across origination and collections to boost productivity; and forging strong partnerships to optimize our funding mix. These priorities reflect our commitment to responsible growth while staying true to our core purpose.

Corporate Social Responsibility and ESG Commitment

At Veritas, we view social responsibility as integral to our purpose of inclusive growth. In FY 2024-25, we introduced "Swastha" master health check-up camps, conducted financial literacy sessions for rural borrowers, and undertook employee-led wellness programs like the Walkathon Challenge and Veritas Premier League (VPL). Through Veritas Foundation, we also supported infrastructure development by building and maintaining smart public toilets at the Tiruchirappalli bus terminal. Our education efforts included renovation of Government High School at Ladapuram, and providing scholarships to 42 deserving female students from underprivileged backgrounds, across Tamil Nadu, empowering them to pursue higher education in fields of their choice.

Looking ahead, ESG will remain pivotal to our strategy. Our ESG journey will

evolve through collaboration, learning, and continuous improvement. We are in the process of initiating a formal ESG materiality assessment to identify and embed sustainability priorities into our strategy. In the months ahead, we will define clear ESG goals, engage with stakeholders, and build internal capacity to measure and report our progress effectively. This dual focus, on measurable social impact and long-term environmental stewardship, underscores our commitment to building a responsible and resilient financial institution.

I am grateful to our employees, Board, investors, customers, lenders, and regulatory partners. Your unwavering support fuels our resolve to grow with integrity and impact. As we prepare to enter the public markets, we do so with a clear mission to empower the real Bharat and to build a financial institution that stands for trust, inclusion, and long-term value creation.

Capital Adequacy Ratio:

The Company had a Capital to Risk Adjusted Assets ratio of 37.82% against the statutory requirement of 15% due to higher capital base and lower leverage.

Operational Highlights:

Some of the highlights for the year ended March 31, 2025, are:

- 1) The Company disbursed ₹ 3,933.12 Crores during the period resulting in the Loan book of ₹ 7,348.64 Crores.
- 2) During the year ended March 31, 2025, 9 branches were opened and accordingly, the Branch Network has increased to 391 branches across ten states of Tamil Nadu, West Bengal, Karnataka, Odisha, Madhya Pradesh, Telangana, Andhra Pradesh, Jharkhand, Chhattisgarh, Bihar and union territory of Puducherry.
- 3) Veritas Service Centres (VSCs) – 65 VSCs were opened during the year ended March 31, 2025, and accordingly the total VSCs has been increased to 117 for the year ended March 31, 2025. Veritas Service Centres are opened as an extension of the branches for servicing the customers.

Future Outlook:

The Company has created a strong base for the existing product verticals that cater to short-term working capital, medium-term business loans and long-term housing finance needs of the MSME segment. These verticals would enter into a year of consolidation and focus on efficiency in operation and growth. In order to further consolidate the product offerings to the MSME segment, the Company has commenced Used Commercial Vehicle Loans as a separate vertical. This would help us diversify the risk further.

Credit Rating

During the period under review, the Company got a rating outlook change to “CARE A+” with positive outlook (CARE Single A Plus) for the Long Term Bank loans and Non-Convertible Debentures.

The short-term rating of “CARE A1+”, was reaffirmed for its Short-Term Bank Loan Facilities and Commercial Papers. The rating “CARE A1+”, is the highest in short-term rating and indicates a very strong degree of safety with regard to timely payment of interest and principal amount.

OUR ERM FRAMEWORK

At Veritas Finance, we have institutionalised an Enterprise Risk Management (ERM) Policy, which serves as a comprehensive, umbrella policy outlining the principles, structure, and processes for risk management across the organization.

The policy provides a unified approach in identifying, assessing, and mitigating risks, thereby fostering a risk-aware culture throughout the organisation. The active involvement of the Senior Management team in the implementation of the ERM framework ensures that risk management practices are effectively embedded across all business functions.

Risk Management Structure & Board Governance

Our Risk Management Committee (RMC) plays a pivotal role in the Company's risk oversight framework, functioning in alignment with the RBI's Scale Based Regulations. The Committee meets once in every quarter during the year, adhering to a clearly articulated mandate as detailed in the Corporate Governance Report.

Our Board remains firmly committed to fostering a resilient and comprehensive risk management structure—one that proactively identifies and mitigates both systemic and company-specific risks. As part of this commitment, we have implemented the Internal Capital Adequacy Assessment Process (ICAAP), Enterprise Risk Management Framework & Operational Risk Management (ORM). This methodology facilitates the identification and evaluation of key risks, integration of a stress-testing framework, and the determination of capital adequacy requirements.

This ongoing process not only ensures a sound capital position but also supports the dynamic alignment of our business strategy with evolving risk parameters.

Foresight and Governance of Emerging Risks:

At Veritas, we have a robust Early Warning System (EWS) framework designed to proactively detect patterns and anomalies in customer behaviour at an early stage. This enables us to take timely and preventive actions, thereby supporting effective credit risk management and helping maintain the overall quality and health of our lending portfolio in the form Collection Scorecard using ML Algorithms.

Key Risk Indicators & Risk Appetite Statement:

We have instituted a clearly articulated Risk Appetite Statement (RAS), which defines the level and type of risk the Company is willing to accept in pursuit of its strategic objectives. In tandem, we have implemented a robust Key Risk Indicators (KRI) framework that enables ongoing monitoring of risk exposures. Timely and appropriate management action plans are initiated to address any breaches of the prescribed thresholds, thereby maintaining alignment with our defined risk appetite and ensuring the resilience of our operations.

Risk Types	Impact	Mitigation measures
Credit Risk 	<p>We are exposed to credit default risks from borrowers and counterparties which can affect loan recovery and obligation fulfilment</p>	<p>The Company effectively manages risks through in-house sourcing, a comprehensive credit decisioning process supported by scorecards, and a robust portfolio monitoring and collections framework.</p> <p>To ensure proactive management of credit quality and concentration risks, portfolio analysis and reporting are regularly conducted. Credit risk monitoring occurs at two distinct levels: account-level and portfolio-level.</p>
Liquidity Risk & Interest Rate Risk 	<p>As a retail-focused lender, our business is significantly impacted by the availability and cost of capital. Several micro and macroeconomic factors—such as inflation, economic growth, central bank policies, government regulations, and global events—can drive up lending rates which in turn, may affect the Company's overall profit margins</p>	<p>To manage liquidity risk, we have a comprehensive Asset Liability Management Policy that identifies short-term liquidity gaps and outlines corrective actions.</p> <p>Our diversified lender portfolio includes public and private banks, NBFCs, and mutual funds.</p> <p>Our Company measures liquidity buffers along with monthly reporting of critical ratios and threshold levels to ensure adequate liquidity planning.</p>
Compliance & Regulatory Risk 	<p>Changes in regulatory framework and compliance requirements can significantly impact our business operations, reputation, and financial performance</p>	<p>Our Compliance team works diligently to proactively identify and mitigate risks by continuously monitoring regulatory changes and adhering to elevated governance standards.</p> <p>We have implemented a risk-based Compliance Framework along with a comprehensive Compliance Management tool to support these efforts</p>
Operational Risk 	<p>Disruptions to operations can arise from gaps in internal processes, technology failures, cyber security breaches, employee fraud, and other similar issues</p>	<p>We have implemented a risk-based internal audit framework that thoroughly addresses any operational risks that may emerge during our processes.</p> <p>To manage operational risks effectively, the Company prioritizes the following core procedures:</p> <ul style="list-style-type: none"> • Development of manuals and standard operating procedures, along with appropriate training for staff • Conducting internal audits of branches, with frequency and scope determined based on key risk factors. • Structured process for investigating fraud and taking action against employees involved in such activities. • Monitoring Key Risk Indicators, Risk Appetite Statement as per Operational Risk Management Guidelines • Third party risk monitoring is designed to assess, monitor and manage risks throughout the lifecycle of third-party engagements from vendor selection to contract termination

Risk Types	Impact	Mitigation measures
IT Risk, Cyber Security Risk 	<p>This risk arises from potential inadequacies or failures in technical infrastructure and IT systems, which could adversely impact data availability, integrity, accessibility, and security.</p> <p>Cybersecurity Risk refers to the threat of cyberattacks—such as hacking, phishing, ransomware, or other malicious activities—targeting Veritas’s systems. Such incidents may disrupt operations, compromise sensitive internal data, or lead to unauthorized exposure of customer information</p>	<p>The company has detailed IT policies in line with regulatory guidelines. We have a robust access-control and log tracking for server security, cyber thefts, policies to ensure there is no breach in the privacy of information of customers. These are governed by both IT Strategy and Steering Committee</p>
Conduct & Reputation Risk 	<p>The risk arises from issues such as unethical conduct, regulatory non-compliance, misleading communications, or failure to meet the expectations of consumers, investors, and other key stakeholders</p>	<p>Regular training and awareness programs reinforce the importance of ethical behaviour at all levels of the organization.</p> <p>A policy that addresses customer grievances and has strong redressal mechanisms.</p> <p>Communicate effectively with stakeholders to address their expectations and concerns.</p> <p>Predefined protocols for responding to reputational threats, clear communication channels, and designated teams responsible for managing the situation</p>

Risk-Based Internal Audit (RBIA): Advancing Assurance, Enhancing Resilience

As we continue to operate in a dynamic and rapidly changing risk landscape, our commitment to strong corporate governance and risk management remains unwavering. With our company’s asset size exceeding ₹ 7500 Crores, we have further strengthened our Risk-Based Internal Audit (RBIA) Framework—an integral part of our governance structure.

The RBIA framework, introduced in line with regulatory expectations, continues to evolve as a strategic enabler, helping us anticipate, assess, and respond to key business risks. It enables the internal audit function to focus its efforts on the areas of highest risk and strategic importance, ensuring alignment with the company’s long-term goals while supporting operational efficiency and resilience.

Key Enhancements and Highlights of Our RBIA Approach in the Current Year:

- **Matured Strategic Integration:** Internal audit planning and execution are now more deeply embedded into our strategic planning processes. Audit priorities are directly influenced by the company’s risk appetite and business imperatives.
- **Data-Driven Risk Assessment:** The current year saw the integration of data analytics into our risk assessment and audit scoping processes, enhancing our ability to identify emerging risk trends and focus on high-impact areas.
- **Collaborative Risk Culture:** The RBIA framework fosters a strong partnership between the internal audit team, risk

management, and business units, reinforcing a culture of accountability and proactive risk ownership.

- **Capability Building:** Continued investment in upskilling the audit team and enhancing audit tools has improved the depth and coverage of our audits, ensuring timely and actionable insights for management.
- **Enhanced Board Oversight:** The Audit Committee has been regularly apprised of key audit findings, emerging risk themes, and management action plans—strengthening governance and stakeholder confidence.

As we look ahead, the RBIA function will continue to evolve in response to internal and external developments, leveraging technology and best practices to deepen risk insights and deliver assurance with greater agility.

Our RBIA journey reflects our broader objective: to protect and strengthen our organization by embedding risk awareness and resilience into every level of operation. It is not only a pillar of our governance mechanism but a catalyst for sustainable value creation.

Compliance Processes and Strategies: Ensuring Transparency and Trust

In today’s dynamic and ever-evolving regulatory landscape, the need for robust compliance processes has never been more critical. We at Veritas remain committed to maintaining the highest standards of corporate governance and transparency.

A Foundation of Regulatory Adherence

Our compliance framework is built on a clear understanding of the various laws, guidelines, and regulations that govern the operations of NBFCs. As an NBFC, we are regulated by several important legal and regulatory authorities in India, ensuring that we not only meet regulatory requirements but also deliver value and transparency to our stakeholders. The key regulatory frameworks we comply with include:

1. The Companies Act, 2013: The cornerstone of corporate governance in India, ensuring proper financial disclosure and accountability for companies, including NBFCs.
2. Reserve Bank of India (RBI) Regulations for NBFCs: As an NBFC, we strictly adhere to the guidelines and regulations set by the RBI under the Reserve Bank of India Act, 1934. These include Prudential Norms, Asset Classification and Provisioning, Know Your Customer (KYC) and Anti-Money Laundering (AML) guidelines, Fair Practices Code etc.,
3. SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015: For our publicly listed financial instruments, we comply with the regulations prescribed by the Securities and Exchange Board of India (SEBI) to ensure accurate disclosures and maintain investor confidence.
4. Income Tax Act: Ensuring that we meet our tax obligations under the Income Tax Act, including income tax, GST, and other applicable taxes, to maintain financial transparency.
5. Indian Accounting Standards (Ind AS): We align our financial reporting with the Indian Accounting Standards (Ind AS), ensuring transparency, consistency, and comparability in our financial statements.
6. Consumer Protection Laws: We ensure our operations, especially related to lending and financing activities, are aligned with consumer protection laws to maintain the trust of our customers and stakeholders.

These regulations provide a structured framework that not only ensures compliance but also fosters transparency and accountability, helping us build and maintain long-term trust with our investors, customers, and other stakeholders.

Comprehensive Compliance Processes

Our approach to compliance is both structured and diligent. We follow a rigorous set of processes to ensure compliance across our operations and financial disclosures, with a particular emphasis on meeting the requirements set by RBI and other relevant authorities.

Corporate Governance and Ethical Practices

We adhere to the highest standards of corporate governance and ethical business practices.

Board Composition and Committees: Ensuring that our board is composed of qualified and independent members, with clear roles for the audit, risk, and compliance committees.

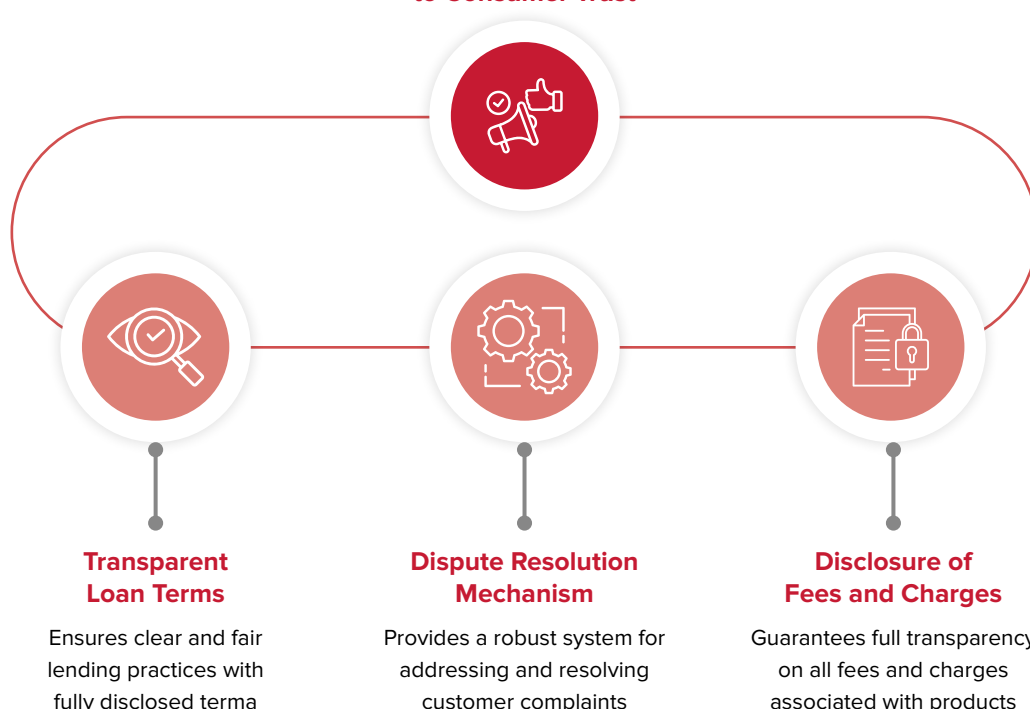

Taxation and Regulatory Compliance: We comply fully with the Income Tax Act and GST Regulations, ensuring that our tax filings are accurate and timely.

Consumer Protection and Fair Practices

We at Veritas deal with a wide range of customers, and their trust is essential. We follow RBI's Fair Practices Code and Consumer Protection Laws to ensure that we offer our products and services fairly. This includes:

- **Transparent Loan Terms:** We ensure that our lending practices are clear, transparent, and fair, with clear terms and conditions that are communicated to the customer at every stage. One of the pioneers in implementing RBI's KFS in vernacular language.
- **Dispute Resolution Mechanism:** A robust mechanism for addressing customer complaints and resolving issues promptly.
- **Disclosure of Fees and Charges:** Full disclosure of all applicable fees, charges, and interest rates associated with our products, ensuring transparency and fairness.

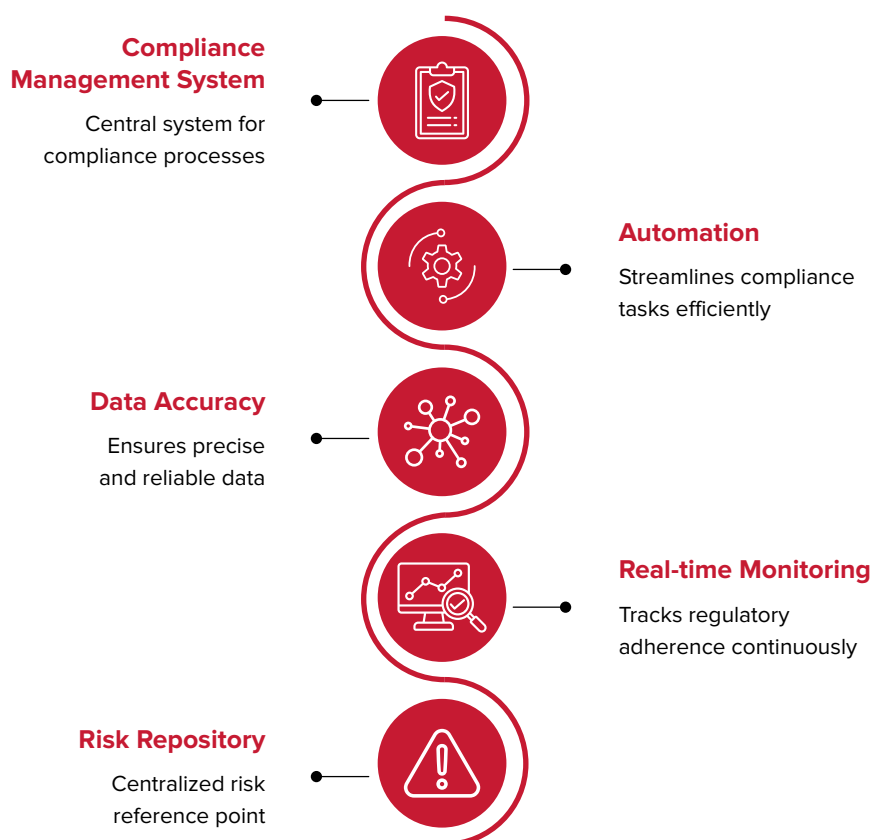

Veritas Commitment to Consumer Trust

Leveraging Technology for Compliance Efficiency

In today's digital era, technology plays a pivotal role in ensuring compliance. At Veritas, we have implemented sophisticated Compliance Management Systems to automate compliance processes, improve data accuracy, and monitor regulatory adherence in real-time. One of the most fundamental uses of compliance management software is a repository of the compliance risks faced by Veritas and the supporting details of each risk. It works as a point of reference for the organization whenever a new risk factor emerges.

Compliance Management at Veritas

Training and Employee Engagement

To foster a culture of compliance across the organization, we regularly train our employees on the latest regulatory changes, ethical standards, and best practices. Training modules focus on educating employees about RBI's regulatory guidelines, Consumer Rights and Fair Lending Practices, Anti-Money Laundering (AML) and KYC.

Continuous Improvement in Compliance Practices

Compliance is not a one-time task but a continuous effort. We regularly review our compliance processes to ensure that we stay ahead of regulatory changes. This includes, Regular Risk Assessments, Monitoring & Testing, Feedback Mechanisms, Adapting to Regulatory Changes

We are dedicated to continuously improving our compliance processes, staying ahead of regulatory changes, and ensuring that our financial operations remain sound, transparent, and secure. By upholding these values, we aim to not only meet the regulatory requirements but also contribute to the sustainable growth of the organization, benefiting all our stakeholders in the long term.

The Board has the power to constitute / reconstitute the Committee from time to time in order to make it consistent with the Company's policy and applicable statutory requirement.

3. Key Principles

The Nomination and Remuneration Committee shall review and recommend to the Board, through its annual review process (or such periodicity as it deems appropriate), adopting the key principles of Remuneration.

- Benchmarked to appropriate market: The level and composition of Remuneration is reasonable and sufficient to attract, retain and motivate employees of the quality required to run the Company successfully.
- Adopt a Pay for Performance philosophy such that the relationship of Remuneration to performance is clear and meets appropriate performance benchmarks.
- Have an appropriate balance in pay mix: The Remuneration has a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals. For the Senior Management, variable pay shall be higher at higher levels of responsibility and subject to the following principles:
 - a) It shall be commensurate with the role and prudent risk taking profile of KMPs and Senior Management employees;
 - b) Can be reduced to zero based on performance at an individual, business-unit and company wide level.
- Be financially viable and relevant to market practices and commensurate to skills:
 - a) taking into account, financial position of the Company, trend in the industry, appointee's qualification, experience, past performance, past Remuneration, and any other relevant factors that the Committee may deem fit;
 - b) be in a position to bring about objectivity in determining the Remuneration package while striking a balance between the interest of the Company and the shareholders.

- The compensation of KMPs and Senior Management shall be aligned effectively with prudent risk taking to ensure that
 - a) compensation is adjusted for all types of risks;
 - b) the compensation outcomes are symmetric with risk outcomes;
 - c) compensation pay-outs are sensitive to the time horizon of the risks, and
 - d) the mix of cash, equity and other forms of compensation are consistent with risk alignment.
- Compliant with local laws:
 - a) Remuneration for Senior Management is in compliance with the relevant provisions of the Act.
 - b) Remuneration for all employees are in compliance with the relevant provisions of Payment of Wages Act, Minimum Wages Act, and such other relevant Labour Laws of the country as may be applicable to the Company from time to time.

4. Compensation Governance:

- The Board of Directors must actively oversee the compensation system's design and operation,

The Board of Directors must monitor and review the compensation system to ensure the system operates as intended,
- Staff engaged in financial and risk control must be independent, have appropriate authority, and be compensated in a manner that is independent of the business areas they oversee and commensurate with their key role in Veritas.

5. Appointment and removal of director, KMP and Senior Management:

Appointment criteria and qualification:

The Committee shall ascertain the integrity, qualification, expertise and experience of the person, identified for appointment as Director and recommend to the Board his / her appointment after taking the prior consent from the RBI as per the "Fit and Proper" criteria guidelines of the RBI.

The NRC shall consider the following attributes / criteria, whilst recommending to the Board the candidature for appointment as director.

- I. Qualification, expertise and experience of the directors in their respective fields;
- II. Personal, Professional or business standing;
- III. Diversity of the Board.

For the appointment of KMP (other than Managing Director) or Senior Management, a person should possess adequate qualification, expertise and experience for the position he / she is considered for the appointment.

Further, for administrative convenience, the appointment of KMP (other than Managing Director) or Senior Management, the Managing Director is authorized to identify and appoint a suitable person for such position.

However, if the need be, the Managing Director may consult the Committee / Board for further directions / guidance.

Tenure of appointment: The Term of the directors including Managing Director / Independent Director shall be governed as per the provisions of the Act and rules made thereunder, as amended from time to time. Whereas the term of the KMP (other than the Managing Director) and Senior Management shall be governed by the prevailing HR policies of the Company.

Removal:

A. Employees: Due to reasons for any disqualification mentioned in the Act or under any other applicable Act, rules and regulations thereunder and / or for any disciplinary reasons and subject to such applicable Acts, rules and regulations and the Company's prevailing HR policies, employment agreements etc., the Committee may recommend, to the Board, with reasons recorded in writing, removal of a KMP or Senior Management.

B. Independent Director: Disqualification shall be done on the following conditions as specified below:

- a. Director incurs any of the disqualifications specified in section 164;
- b. Director absents himself from all the meetings of the Board of Directors held during a period of twelve months with or without seeking leave of absence of the Board;
- c. Director acts in contravention of the provisions of section 184 relating to entering into contracts or arrangements in which he is directly or indirectly interested;
- d. Director fails to disclose his interest in any contract or arrangement in which he is directly or indirectly interested, in contravention of the provisions of section 184;
- e. Director becomes disqualified by an order of a court or a National Company Law Tribunal;
- f. Director is convicted by a court of any offence, whether involving moral turpitude or otherwise and sentenced in respect thereof to imprisonment for not less than six months.

Under Section 169 of the Act which pertains to removal of directors, an independent director appointed for a second term shall be removed by the company only by passing a special resolution and after giving him a reasonable opportunity of being heard. Further, a special notice is required for removal of a director and such director is entitled to attend the general meeting and is eligible to be heard on the resolution at the meeting.

C. Nominee Director: The appointment and Removal of Investor Nominee Directors are as per the agreed terms mentioned in the Share Holders Agreement as amended from time to time.

6. Performance Evaluation of the Board, Committees and each of the Directors

Pursuant to the provisions of the Act, the Board will carry out annual performance evaluation of its own performance, its Committee's and the directors individually covering various aspects of the Board's functioning such as adequacy of the composition of the Board and its Committees, Board culture, execution and performance of specific duties, obligations and governance etc. A separate exercise to evaluate the performance of individual Directors including the Chairman of the Board / Committees will be evaluated on parameters such as level of engagement and contribution, independence of judgement, safeguarding the interest of the Company and its minority shareholders etc.

Framework for performance evaluation of Directors, Board and committees is as per Annexure A to this Policy.

7. Remuneration of Managing Director and/or Chief Executive Officer, KMP and Senior Management and other employees

The Remuneration / compensation / commission, etc., as the case may be, to the Managing Director and/or Chief Executive Officer, KMPs and Senior Management will be determined by the Committee and recommended to the Board for approval. The Remuneration / compensation / commission, etc., as the case may be, shall be subject to the approval of the shareholders of the Company and Central Government, wherever required and shall be in accordance with the provisions of the Act and rules made thereunder.

Further, the Managing Director and/or Chief Executive Officer of the Company in consultation with the NRC is authorized to decide the remuneration of Senior Management, and which shall be decided by the Managing Director based on the standard market practice and prevailing HR policies of the Company.

The NRC Committee determines the annual variable pay compensation in the form of annual incentive and annual increment for the KMPs based on Company's and individual's performance as against the pre-agreed objectives for the year.

The KMPs, except a promoter director, if applicable, is also eligible for ESOPs as per the scheme in force from time to time. Grants under the Scheme shall be approved by the NRC Committee.

The compensation structure shall broadly comprise the following components:

1. Fixed Pay
2. Variable Pay

Composition of Fixed Pay:

- The CTC consists of various components including basic salary, allowances and retinals.

- Allowances include a basket of components including House Rent Allowance, Medical Reimbursement, Leave Travel Allowance & Special Allowance or any other allowance(s) introduced from time to time.
- Retinals include statutory contributions such as Employer's contribution to Provident Fund, Leave Encashment & Gratuity. The Basic salary is determined as a fixed percentage of the Gross Salary to maximum extent possible, thereby ensuring prudent management of the compensation structure.

Composition of Variable Pay:

The Variable pay serves as an effective instrument for managing employee costs in line with business cycles whilst simultaneously reinforcing a meritocratic performance culture. The variable compensation will consist of performance bonus/sales incentives as applicable to different roles. The variable pay for field frontline employees is given in the form of monthly incentives. Incentive payouts are based on individual performance targets. The details of the types of variable pay are as follows:

Annual Performance Bonus (APB): The KMPs and Senior executives of the Company, are eligible for the Annual Performance Bonus. The APB is dependent on individual performance and the organisation's performance for the financial year. The performance rating assigned is based on the assessment of performance delivered against a set of defined performance objectives.

ESOPs: The KMPs and Senior executives are eligible for long-term incentive plan in the form of ESOPs, as per the scheme in force from time to time. Grants under the Scheme are approved by the NRC Committee.

Insurance: Based on the grade and seniority of employees, benefits for employees include: Health-related including health (hospitalization) insurance for self and family Life insurance covering accident, disability etc.,

Car Scheme: In addition to the above, the Executive Director and Senior Employees may also be eligible and be provided with Company Car, Mobile and such other benefits and such other perquisites as may be determined and issued from time to time based on the company policy.

Retention pay: The executive committee may decide to offer retention payment to certain senior or key employees as a means to retain them, based on the merits of exigencies, in the best interests of the Company.

8. Compensation for Risk Control and Compliance Staff:

To ensure a robust Risk Management and Control Mechanism, it is intended that KMPs and Senior Management engaged in financial control, risk management, compliance and internal audit are compensated in a manner that is independent of the business areas they oversee and commensurate with their key role in the company. Accordingly, the company shall ensure that the mix of fixed to variable compensation for control function is weighted in favour of fixed compensation and in line with the RBI guidelines for NBFCs.

9. Malus and Clawback:

Malus: Malus arrangement is applicable for all types of variable pay (Cash / Deferred cash / ESOP / Deferred Incentive Plan / Bonus), which is not yet vested/paid, or vested but not paid/exercised. Payment of all, or part, amount of Variable Pay can be secured under Malus.

Clawback: Previously paid or already vested Variable Pay can also be recovered under this clause. This arrangement is applicable either fully or partially for all types of variable pay. The clawback will be applicable to employees even after their separation from the Company.

Malus & Clawback may be applied under the following circumstances:

- Fraud, misfeasance, breach of trust, dishonesty, or wrongful disclosure by the employee of any confidential information pertaining to the Company;
- Willful misinterpretation / misreporting financial performance of the Company;
- Material failure in risk management controls or material losses due to negligence in risk-taking which are attributable to the employee, whether directly or indirectly;
- Any misconduct pertaining to moral turpitude, theft, misappropriation, corruption, forgery, embezzlement, or an act of a felonious or criminal nature;
- Non-disclosure of material conflict of interest by the employee or any misuse of official powers;
- An act of willful, reckless, or grossly negligent conduct which is detrimental to the interest or reputation of the company monetarily or otherwise;
- Any breach of the Code of Conduct, Non-Disclosure Agreement, regulatory procedures, internal rules, and regulations, or any other such instance for which the NRC/MD, in their discretion, may deem it necessary to apply malus or / and clawback provisions;

Malus may be applied under the following additional circumstances:

- Deterioration of financial performance of the Company going into losses in the Profit after Tax from one financial year to the next; or vs budget for the year; or any other criteria laid down by the NRC / MD from time to time;
- In case any deferred / LTI plan is issued which is linked to the performance of an employee and the defined performance parameters are not met by the employee
- On Resignation or separation of the employee from services of the Company

In deciding the application of malus/clawback to any part or all of variable pay or incentives (whether paid, vested or unvested), the NRC / MD will follow due process and adhere to the principles of natural justice and proportionality. Further, in assessing the quantum of cancellation/withdrawal, the NRC/MD will take into consideration all relevant factors, including inter alia, internal factors such as the role and responsibilities of the employee, culpability and proximity to the misconduct as well as any external factors, including but not restricted to exception situations like Covid19, that may have been beyond the control of the employee concerned.

No variable pay / New Grants:

Under certain circumstances, the company may decide not to issue any new grants / approve any variable pay / incentive pay for the year, or for a specific period, to an employee individually, or to a group of employees collectively, or to all employees.

10. Remuneration to Independent Director

Independent Directors are paid remuneration by way of Sitting Fees as approved by the shareholders.

The sitting fee payable to the Independent Director for attending the Board and Committee meetings is fixed subject to the statutory ceiling. The fee is reviewed periodically and aligned to comparable best in class practices.

The independent directors of the company shall hold at least one meeting in a year, without the attendance of non-independent directors and members of management. A resolution will be passed in the Board for payment of sitting fees to the independent Directors for attending the meetings of the Board or Committee thereof or for any other purpose whatsoever as may be decided by the Board. Section 197 of the Act also provides for the payment of Commission to Independent Directors up to a maximum of 1% of the net profit of the Company as determined by the Board from time to time.

The sitting fees, as the case may be, to the Independent Director, shall be in accordance with the provisions of the Act and the Rules made thereunder for the time being in force or as may be decided by the Committee / Board / shareholders.

11. Policy Review

Subject to the approval of the Board, the Nomination & Remuneration Committee reserves the right to review and amend this policy, if required, to ascertain its appropriateness as per the needs of the Company. This policy may be amended by passing a resolution at a meeting of the Nomination and Remuneration Committee and wherever required the recommendation to the Board will be made for its approval.

12. Dissemination of Policy

The Board Diversity Policy shall be available on the website of the Company i.e., <https://www.veritasfin.in/>.

Pecuniary Relationship with Directors

Apart from the remuneration that the eligible Non-Executive Directors would be entitled to under the Act, none of the Directors have any other pecuniary relationships or transactions with the Company, its Subsidiaries or Associates, or its Directors, during the two immediately preceding financial years or during the current financial year. None of the Directors of the Company are inter-se related to each other.

Succession Planning

The Nomination and Remuneration Committee works with the Board on the succession plan of directors and senior management team of the Company to ensure orderly succession and preparedness both for planned transitions and unforeseen events. The Company strives to maintain an appropriate balance of skills and experience within the organization and the Board in an endeavour to introduce new perspectives while maintaining experience and continuity. In addition, Nomination and Remuneration Committee also highly recommends promoting the senior management within the organization which helps in fuelling the ambitions of the talent force to earn future leadership roles. The dedication and hard work of our employees have been the foundation of our achievements for decades. Each year, we strengthen this advantage by investing in talent development and fostering an environment where individuals can grow and realize their full potential. The Company has a board-approved Succession Planning Policy for the appointments to the Board and to the Senior Management.

Management Team

The Management of the Company comprises Senior Executives from different functions headed by the Managing Director & Chief Executive Officer who operates under the supervision and control of the Board. The Board reviews and approves strategy and oversees the actions and results of Management to ensure that the long-term objectives of enhancing stakeholders' value are met.

The Senior Management of Veritas have confirmed that there have been no material financial and commercial transactions between them and the Company during FY 2025 which could have potential conflict of interest with the Company at large.

Compliance with Directorship Limits

On the basis of disclosures received from the Directors, it is confirmed that, as on March 31, 2025, none of the Directors of the Company:

- i. hold Directorship positions in more than twenty companies (including ten public limited companies and seven listed companies); and
- ii. is a member of more than ten committees and/or Chairperson of more than five committees, across all the Indian public limited companies in which they are Directors.

The above compliances were met throughout the year.

Board confirmation regarding independence of the Independent Directors

The Company has received declarations from all the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) of the Act read with Rules framed thereunder, and Regulation 16(1)(b) of the Listing Regulations. In terms of Regulation 25(8) of the Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact their ability to discharge their duties with an objective independent judgement and without any external influence.

Based on the disclosures received from all the Independent Directors, the Board, after taking these declarations/ disclosures on record, opined that the Independent Directors fulfil the conditions of independence as prescribed under the Act and the Listing Regulations, are persons of integrity, possess the relevant expertise, proficiency, and experience to qualify and continue as Independent Directors of the Company and are Independent of the Management.

During the financial year under review, Mr. Abhijit Sen, Mr. N Mohanraj, Mr. M Sivaraman, Independent Directors of the Company, ceased to be Independent Directors, on completion of their second and final tenure, and Mr. Raj Vikash Verma, Ms. Susan Thomas, were appointed as the Independent Directors.

Separate Meeting of Independent Directors

During the year under review, in line with the requirement under section 149(8) and schedule IV of the Act, the Independent Directors had a separate meeting on February 04, 2025, without the presence of the non-independent directors and management team wherein they put forth their views and discussed the matters relating to Company's affairs.

At this Meetings, the Independent Directors reviewed the performance of Non-Independent Directors and the Board as a whole, reviewed the performance of the Chairman of the Company, assessed the quality, quantity, and timeliness of the flow of information between the Management and the Board and its Committees that is necessary for the Board to effectively and reasonably perform and discharge its duties. The meeting was well attended by the Independent Directors and suggestions provided by them were well received by the management for implementation.

The independent directors of the Company provide an annual certificate of independence in accordance with section 149(7) of the Act, to the company which is taken on record by the Board.

Management Discussion and Analysis

Economy Overview

Global Economy¹

The global economy showed resilience in CY24, achieving a growth rate of 3.3% despite challenges from geopolitical conflicts, trade tensions and shifts in monetary policy. The US economy maintained robust performance, supported by strong business activities and high employment, while Europe, especially Germany, observed subdued growth due to weak manufacturing sector and low exports. Driven by strong local demand and increased foreign investment, Emerging Market and Developing Economies (EMDEs) performed better than developed countries, growing at 4.3% as compared to 1.8%. Asia's export-led growth model also delivered unprecedented prosperity, accounting for nearly 60 % of global growth in CY 2024.² However, China's growth moderated to 5% owing to subdued consumption and overcapacity issues.

A decrease in global inflation from 6.6% in CY2023 to 5.7% in CY2024 contributed to price stabilisation and economic growth. Driven by smart monetary policies and steady energy supplies, this decline in inflation helped in boosting business confidence.

Outlook

The global economy is set to achieve a moderate growth rate of 2.8% in CY 2025 and 3.0% in CY 2026, supported by a gradual decrease in inflation and effective monetary policies by central banks. Emerging markets' growth is likely to moderate at 3.7%, while developed countries are expected to grow steadily, reaching 1.4% growth in CY 2025. With inflation projected to decline to 4.2% in CY 2025 and 3.5% in CY 2026, it is anticipated to increase consumer spending.

It is further expected that despite geopolitical turmoil; smart government spending and careful budgeting will play a crucial role in bolstering economic strength. Looking forward, the global economy landscape presents both challenges and opportunities. A keen policy in balancing trade-offs between inflation and real activity, rebuilding buffers and lifting medium-term growth prospects will lead towards a more balanced future.

Indian Economy³

The Indian economy maintained its position as one of the fastest-growing major economies, achieving 6.5% GDP growth in FY 2024-25.⁴ This growth can be primarily attributed to strong rural demand, strategic government initiatives and robust capital expenditure. For most of the year under review, CPI inflation remained under control, hovering around 4.8%, comfortably within the RBI's target range of 2-6%.

In a steadfast commitment of the Government towards 'Ease of Doing Business', the Indian government is proposing changes to soften compliance, expand services, build a strong regulatory environment and promote international and domestic investment. Further, the RBI reduced its repo rate from 6.5% to 6%, making borrowing easier and supporting private investments.

India maintained its fiscal deficit between 4.4% and 4.5% of GDP, helping in enhancing investment in areas such as housing, infrastructure and business-friendly reforms. Further, bank credit has grown at a steady rate with credit growth converging towards deposit growth. The banking sector exhibits improvement in asset quality, robust capital buffers and strong operational performance. With smart policies and strong investments, India is poised to sustain its growth momentum.

Outlook

India's economy will remain supported by the Government's efforts to accelerate growth, secure inclusive development and invigorate private sector investments. With recent tax cuts, it is anticipated to boost middle-class household savings and consumption. Further, as inflation declines, it is expected to bolster consumer spending and support economic growth.

The government is streamlining business operations by reducing regulations and encouraging private investment, aiming to create a more conducive environment for economic growth and development. Sectors such as retail and digital services are well-positioned for significant growth due to rising disposable incomes and increased internet access, driving demand for both goods and services. With rising investor trust and robust government support, India's future looks optimistic.

Industry Overview

Non-Banking Financial Sector⁵

The India Non-Banking Financial Companies (NBFCs) sector is experiencing robust growth, driven by a rising middle class, enhanced focus on financial inclusion and supportive government policies. These institutions cater to underserved segments, offering services in areas such as business loans, housing finance, microfinance and consumer finance. The ability to understand diverse customer needs and provide tailored products has resulted in their increased contribution to the nation's economic growth.

The adoption of digital technologies has further enabled NBFCs to streamline operations and enhance customer experiences. By leveraging tools such as super apps, data analytics and digital platforms, NBFCs have improved processes in credit assessment, loan disbursement and collections.

MSME Industry⁶

The Micro, Small, and Medium Enterprises (MSME) sector is a vital part of India's economy, significantly contributing to employment, manufacturing and exports. As of April 2025, approximately 6.24 crore MSMEs were registered on the Udyam Registration Portal and Udyam Assist Platform, providing employment to over 23.47 crore individuals.⁷

The export performance of MSMEs has recorded substantial growth, with exports rising from INR 3.95 lakh crore in FY 2020-21 to INR 12.39 lakh crore in FY 2024-25. The number of exporting MSMEs also increased significantly, from ~ 53,000 in FY 2020-21 to ~ 1,73,000 in FY 2024-25. Their share in India's total exports grew to 45.79% by May 2024, showing their expanding role in global trade.

To support and enhance the growth of the MSME sector, the Indian government has implemented various initiatives. The Union Budget 2025-26 introduced measures such as increasing the credit guarantee cover for micro and small enterprises from INR 5 crore to INR10 crore, facilitating additional credit of INR1.5 lakh crore over five years. Additionally, a new Fund of Funds with INR 10,000 crore was established to support startups and a scheme was launched to provide term loans up to INR 2 crore for first-time women, Scheduled Caste and Scheduled Tribe entrepreneurs. These efforts aim to improve innovation, enhance competitiveness and ensure better access to resources for MSMEs.

Housing Finance Industry⁸

The housing finance industry in India has observed steady growth over the last few years, driven by factors such as increasing urbanisation, a rise in nuclear families and supportive government schemes such as 'Housing for All'.

While banks primarily focus on higher-ticket loans to salaried customers with good credit profiles in metropolitan and urban areas, NBFCs focus on relatively smaller-ticket loans to customers, including the self-employed, in tier 2 and below cities, where lending is based on the assessed income model.

Opportunities

Credit Demand in Rural and Semi-Urban Areas

NBFCs have tremendous opportunity in the rural and semi-urban areas, as the majority of people lack access to traditional banking institutions. NBFCs can capitalise on this opportunity by offering easy loans, microfinance or vehicle finance services with flexible terms. These areas have growing demand, especially among first-time borrowers, small traders and farmers.

Digital Lending and Fintech Collaboration

With the increase in number of smartphone users and advancement of technology, more people are gaining access to internet banking. NBFCs can harness the power of technology to streamline loan processes with fewer documents and quicker approval. Further, partnerships with fintech companies will allow NBFCs to use tools such as AI and data analytics to better understand customers and reduce loan risks.

Support for Small Businesses and Startups

Many small businesses and startups do not qualify for loans from mainstream banks because they lack collateral or extensive financial data. NBFCs can capture this opportunity by tailoring services such as customised loans, invoice financing or working capital support.

Government and Regulatory Push for Financial Inclusion

The Indian government and the RBI are working to increase financial access for all citizens. NBFCs cater to underserved segments, driving financial inclusion. Further, government schemes such as Mudra loans and digital India initiatives give NBFCs more opportunities to grow, especially if they align their offerings with these programs.

Vehicle Financing Industry¹⁰

The Indian vehicle finance industry is a significant segment of the financial services sector. The industry has experienced steady growth, with a compound annual growth rate (CAGR) of 11.49% from FY 2019-20 to FY 2023-24. This expansion is driven by increasing vehicle demand, particularly in tier II and III cities, where consumers are opting for longer loan tenures to manage higher vehicle costs. While banks traditionally focused on new vehicle financing, they are now expanding into the pre-owned vehicle segment to meet rising consumer demand. NBFCs have established a strong presence as well, especially in commercial vehicle financing.

The market is poised for significant expansion, with a projected CAGR of 16.35% from 2025 to 2030, driven by increasing adoption of electric vehicles (EVs) and favourable government initiatives such as FAME II. Despite a brief slowdown anticipated in 2025, the long-term outlook remains strong, particularly in the commercial vehicle finance segment, which stands to benefit from government-driven infrastructure investments. Further, a burgeoning middle class, coupled with increasing disposable income levels and rapid urbanisation, will drive the expansion of the auto finance market in India.

Challenges

Limited Access to Low-Cost Funds

NBFCs do not have as many avenues to raise capital as banks do. Banks can accept deposits from the public, which enables them to lend at lower costs. However, NBFCs primarily depend on borrowing from banks or markets, which can be more expensive.

Rising Loan Defaults

When individuals or businesses do not repay their loans on schedule, NBFCs face challenges known as defaults. A rise in defaults reduces the capital available for NBFCs to extend new loans, which in turn affects their profitability and investor confidence.

Strict Regulatory Oversight

Over time, rules for NBFCs have become stringent, causing these institutions to follow more guidelines, similar to banks. While this enhances safety, it also increases operational costs and reduces flexibility.

Also, during the year the Company has completed 6 securitization transactions aggregating to INR 700.00 Crores invested by Mutual Funds and NBFCs. During the year, the company has been glad to welcome new lenders partnering in our growth namely HSBC Mutual Fund, SIDBI, Bank of Maharashtra and Nabsamruddhi Finance Ltd.

The Funding mix of the Company as on March 31, 2025, is given below:

Credit Rating

During the year, rating agency CARE Ratings has revised the outlook of the long-term credit rating of the company to **“CARE A+”** with Positive outlook for the Long-term Bank loans and Non-Convertible Debentures from **“CARE A+”** with stable outlook. Also, CARE Ratings has reaffirmed **“CARE A1+”** for the short-term borrowings as well as for Commercial Paper issuance.

Investments

The Investment Policy approved by the Board of Directors envisages deployment of temporary cash surplus, arising out of the gap between cash inflows and outflows, in liquid/overnight schemes of mutual funds, fixed deposits with Banks and investment in Government securities and treasury bills. The investment function ensures adequate levels of liquidity to support business requirements, maintaining a high degree of safety and optimising the level of returns, consistent with acceptable levels of risk by investing in short-term instruments. As at March 31, 2025, the investment in Fixed deposits free of lien stood at INR 437.98 Crores, Investment in liquid schemes of Mutual Funds stood at INR 120.20 Crores and investment in Govt. Securities/T-bills stood at INR 50.49 Crores.

Asset Liability Management

The Company follows a cautious and well-planned approach to ensure that its funding matches its assets, leading to strong asset-liability stability. As part of its strategy to maintain healthy cash flow, it usually keeps enough cash or un-drawn credit lines to cover at least two months of expenses. This solid approach to managing assets and liabilities is a core strength of the Company.

In terms of interest rate changes, the Company uses a combination of fixed and floating rate borrowings. Most of its loans, except home loans, are given at fixed rates, while borrowings are a mix of fixed and floating rates. The main focus is on keeping the net interest spread at an optimal level, depending on how market interest rates move.

Internal Control Systems

The Company's system of internal controls is designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, the reliability of financial controls and compliance with applicable laws and regulations. An internal control framework, including internal financial controls, encompassing clear delegation of authority and standard operating procedures, are available across all businesses and functions. Clear segregation of duties exists between various functions. To ensure that assets are safeguarded against losses that may arise due to unauthorised use or disposition, the Company has in place adequate systems to ensure that assets and transactions are authorised, recorded and reported. Key operational processes (finance and operations) are centralised at head office for better control. The Company has instituted a strong IT security system to ensure information security. By implementing robust Loan Management Systems, it has further strengthened its system controls. All policies are reviewed and approved by the board on a periodic basis.

Pursuant to the RBI's Guidelines on Risk-Based Internal Audit (RBIA) System for select NBFCs and UCBs dated February 03, 2021 – every NBFC with asset size of ₹5,000 crore and above is required to have an in-house internal audit function. Accordingly, the Company has appointed a Chief Audit Officer (CAO) and has formulated a Risk based Internal Audit framework covering branches and HO processes which is commensurate with the size and nature of its business. This risk-centric approach allows Strategic Alignment, Proactive Risk Management, Optimized Resource Allocation and Enhanced Stakeholder Confidence.

The CAO reports to the Audit Committee of the Board of Directors of the Company. The CAO conducts comprehensive audits of functional areas and operations of the Company to examine the adequacy of and compliance with policies, plans and statutory requirements. Any significant observations from the audit are reported to the Audit Committee and follow-up actions are taken accordingly. The Audit Committee also reviews the adequacy

and effectiveness of the Company's internal control environment and monitors the implementation of audit recommendations.

Information Technology

Veritas Finance Limited is at the forefront of digital transformation in the MSME lending sector, leveraging cutting-edge technology to drive operational excellence and deliver superior customer experiences. By automating repetitive tasks, implementing zero-data entry processes, and strengthening its IT infrastructure, it has significantly improved productivity and efficiency across its operations. The adoption of advanced analytics and machine learning enables more accurate credit assessments and data-driven decision-making, enhancing both risk management and customer service. These initiatives not only streamline internal workflows but also ensure a seamless, user-friendly digital journey for customers, reinforcing Veritas's commitment to innovation, growth, and customer-centricity.

Enterprise Risk Management Framework

The Company established an Enterprise Risk Management (ERM) Policy that outlines the principles, structure, and processes

for managing risks organization-wide. This unified approach enables consistent risk identification, assessment, and mitigation, promoting a risk-aware culture. Senior Management's active involvement ensures effective integration of risk management across all business functions.

Risk Management Structure & Board Governance

The Risk Management Committee (RMC), aligned with RBI's Scale Based Regulations, meets quarterly to oversee the Company's risk framework. The Board is committed to a robust structure that proactively identifies and mitigates risks through the Internal Capital Adequacy Assessment Process (ICAAP), Enterprise Risk Management, and Operational Risk Management. These tools support stress testing and ensure capital adequacy in line with the evolving strategy.

Foresight and governance of Emerging Risks:

Veritas uses an Early Warning System (EWS) powered by ML-based Collection Scorecards to detect early signs in customer behavior, enabling timely action and effective credit risk management.

Key Risk Indicators & Risk Appetite Statement:

A defined Risk Appetite Statement (RAS) and Key Risk Indicators (KRI) framework support continuous monitoring. Breaches trigger prompt action plans to maintain alignment with strategic risk tolerance and operational resilience.

Risk Types	Impact	Mitigation measures
 Credit Risk	We are exposed to credit default risks from borrowers and counterparties which can affect loan recovery and obligation fulfilment	The Company manages these risks through in-house sourcing, credit decisioning supported by scorecards, and strong portfolio monitoring and collections. Regular portfolio analysis and reporting ensure proactive management of credit quality and concentration risks at both account and portfolio levels.
 Liquidity Risk & Interest Rate Risk	As a retail-focused lender, our business is significantly impacted by the availability and cost of capital. Several micro and macroeconomic factors—such as inflation, economic growth, central bank policies, government regulations, and global events—can drive up lending rates which in turn, may affect the Company's overall profit margins	To manage liquidity risk, we have a comprehensive Asset Liability Management Policy that identifies short-term liquidity gaps and outlines corrective actions. Our diversified lender portfolio includes public and private banks, NBFCs, and mutual funds. Our Company measures liquidity buffers along with monthly reporting of critical ratios and threshold levels to ensure adequate liquidity planning.
 Compliance & Regulatory Risk	Changes in regulatory framework and compliance requirements can significantly impact our business operations, reputation, and financial performance	The Company Compliance team proactively mitigates risks through ongoing regulatory monitoring and a robust, risk-based Compliance Framework, supported by an integrated Compliance Management tool.
 Operational Risk	Disruptions to operations can arise from gaps in internal processes, technology failures, cyber security breaches, employee fraud, and other similar issues	The Company manages operational risks like process gaps, technology failures, cybersecurity breaches, and employee fraud through a risk-based internal audit framework, clear SOPs with staff training, regular branch audits, structured fraud investigations, continuous monitoring of key risk indicators, and comprehensive third-party risk management.

Risk Types	Impact	Mitigation measures
 IT Risk, Cyber Security Risk	This risk stems from failures or weaknesses in IT infrastructure that could harm data availability, integrity, and security. Cybersecurity risk involves threats like hacking, phishing, or ransomware that may disrupt operations or expose sensitive company and customer data.	The company has detailed IT policies in line with regulatory guidelines. We have a robust access-control and log tracking for server security, cyber thefts, policies to ensure there is no breach in the privacy of information of customers. These are governed by both IT Strategy and Steering Committee
 Conduct & Reputation Risk	The risk arises from issues such as unethical conduct, regulatory non-compliance, misleading communications, or failure to meet the expectations of consumers, investors, and other key stakeholders	<p>Regular training reinforces ethical behavior at all levels.</p> <p>A clear policy with strong customer grievance redressal.</p> <p>Effective communication with stakeholders to address concerns.</p> <p>Predefined protocols and teams for managing reputational threats.</p>

For example, the Company maintains a zero-tolerance policy towards sexual harassment in the workplace and fully complies with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, through the constitution of Internal Complaints Committees. Additionally, a Grievance Redressal Policy is in place to address any other human rights concerns or issues.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Company has established the Employee Grievance Redressal Committee (DOST) to ensure a healthy, respectful, and supportive work environment for all employees. This Committee is designed to serve as a formal platform for addressing employee concerns and grievances that may arise from time to time.

The primary objective of the Committee is to facilitate the fair and timely review and resolution of grievances, thereby promoting transparency and trust within the organization.

Employees are encouraged to submit their grievances to the Committee either in writing or via email at dost@veritasfin.in.

The Company maintains a zero-tolerance policy and strictly prohibits all forms of exploitation, forced labour, and abuse including child labour, slavery, and physical, sexual, marital, or verbal abuse.

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Company has instituted multiple committees and mechanisms—namely, the Ethics and Code of Conduct Committee, the Disciplinary Committee, and the Employee Grievance Redressal Committee (DOST)—to proactively prevent and address incidents of harassment. In addition, regular awareness and training programs are conducted to educate employees on appropriate workplace behaviour and reporting procedures.

To further strengthen its commitment to a safe and respectful work environment, the Company has implemented a Whistleblower Policy and Vigil Mechanism, a Code of Conduct for Directors and Senior Management, and a comprehensive Prevention of Sexual Harassment (POSH) Policy. These formal channels enable employees to report any instances of discrimination or harassment with the assurance of confidentiality and protection.

Complainants are fully safeguarded against any form of retaliation, including but not limited to threats of termination or suspension, disciplinary action, demotion, transfer, denial of promotion, or any misuse of authority that may impede their ability to perform their duties or make further protected disclosures.

Furthermore, the Grievance Redressal Policy clearly outlines the escalation hierarchy for addressing customer complaints, ensuring that all concerns are resolved in a fair, respectful, and transparent manner.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are

independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matters	How our audit addressed the key audit matter
<p>Impairment loss allowance for loans based on expected credit loss model – refer Note 3.6, 3.7, 7, 9, 18, 29, 36.2</p> <p>Loans represents a significant portion of the total assets of the Company. The Company has reported loans aggregating to Rs. 7,34,864.29 lakhs against which an impairment loss allowance of Rs. 16,076.48 lakhs has been recognised as at March 31, 2025.</p> <p>As per the expected credit loss model of the Company developed in accordance with the principles set out in Ind-AS 109 on Financial Instruments, the Company is required to estimate the probability of loss / expected loss based on past experience and future considerations.</p> <p>This involves a significant degree of estimation and judgement, including determination of staging of financial assets; estimation of probability of defaults, loss given defaults, exposure at defaults; and forward-looking factors, micro and macro-economic factors, in estimating the expected credit losses.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Read and assessed the Company's accounting policies approved by the Board of Directors with respect to impairment of financial instruments considering the requirement of Ind AS 109 and applicable Reserve Bank of India guidelines / regulations. • Evaluated the reasonableness of the management estimates by understanding the process of ECL estimation and related assumptions. Tested the design and operating effectiveness of controls around data extraction, validation and computation. • Assessed the criteria for staging of loans based on their past due status to check compliance with requirement of Ind AS 109. Tested a sample of performing loans to assess whether any significant increase in credit risk (SICR) or loss indicators were present requiring them to be classified under higher stages.

Key audit matters

The Company has also recorded a management overlay as part of its ECL, to reflect among other things an increased risk of deterioration in relevant macro-economic factors. Such overlays are based on various uncertain variables which could result in actual credit loss being different than that being estimated.

In view of the high degree of management's judgement involved in estimation of ECL and the overall significance of the impairment loss allowance to the financial statements, it is considered as a key audit matter.

How our audit addressed the key audit matter

- For provision of expected credit loss (ECL) against outstanding exposures classified across various status, we obtained understanding of the Company's provisioning methodology (including factors that affect the probability of default (PD), loss given default (LGD), and exposure at default (EAD), various forward looking macro-economic factors), the changes and refinement to ECL model made during the year, the underlying assumptions and the sufficiency of the data used by management and tested the same on a sample basis.
- Involved internal experts for testing of the ECL model and computation, including factors that affect the PD, LGD and EAD considering various forward looking, micro and macro-economic factors.
- Tested assumption used by the management in determining the overlay for macro-economic and other factors.
- Tested the arithmetical accuracy of computation of ECL provision performed by the Company.
- Assessed the disclosures as per accounting standards and regulations included in the financial statements in respect of expected credit losses.

Information technology (IT) systems and controls

The financial accounting and reporting systems of the Company are fundamentally reliant on IT systems and IT controls to process significant transaction volumes.

Automated accounting procedures and IT environment controls, which include IT governance, general IT controls over program development and changes, access to programs and data and IT operations, are required to be designed and to operate effectively to ensure accurate financial reporting. Further, the extant regulations require the Company to maintain a daily back-up of its books of account and to use accounting software which has an audit trail (edit log) feature.

Any gaps in the IT control environment could result in a material misstatement of the financial accounting and reporting records or non-compliance with regulatory requirements.

Therefore, due to the pervasive nature and complexity of the IT environment, the assessment of the general IT controls and the application controls specific to the accounting and preparation of the financial information is considered to be a key audit matter.

- Our audit procedures focused on the IT infrastructure and applications relevant to financial reporting of the Company:
- The aspects covered in the assessment of IT General Controls comprised: (i) User Access Management; (ii) Program Change Management; (iii) Other related ITGCs – to understand the design and test the operating effectiveness of such controls in respect of information systems that are important to financial reporting ("in-scope applications").
- Tested the changes that were made to the in-scope applications during the audit period to assess changes that have impact on financial reporting.
- Tested the periodic review of access rights, inspected requests of changes to systems for appropriate approval and authorisation.
- Performed tests of controls (including other compensatory controls, wherever applicable) on the IT application controls and IT dependent manual controls in the system.
- Tested the design and operating effectiveness of compensating controls, where deficiencies were identified and, where necessary, extended the scope of our substantive audit procedures.
- Tested the configuration of the audit trail feature in the accounting software and maintenance of back-up as per extant regulatory requirements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Board of Directors Report, included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter with those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The financial statements of the Company for the year ended March 31, 2025, included in these financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on April 25, 2024.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the back-up of the certain books of account and other books and papers maintained in electronic mode has not been maintained on servers physically located in India on a daily basis for a certain period of time, as stated in note 57 to the financial statements;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

- (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above on reporting under Section 143(3)(b) and paragraph (i)(vi) below on reporting under Rule 11(g).
- (g) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (h) In our opinion, the managerial remuneration for the year ended March 31, 2025 has been paid / provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act;
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statement – refer note 36.1 to the financial statement;
 - ii. The Company has made provisions, as required under the applicable law or accounting standard for material foreseeable losses, if any, on long term contracts. The Company does not have any derivative contract. Refer note 7 and note 18 to the financial statement;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. a) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 56 (v) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"),

with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- b) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 56 (vi) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. No dividend has been declared or paid during the year by the Company.
- vi. Based on our examination which included test checks and as described in note 58 to the financial statement, the Company has used a general ledger application, for maintaining its books of account which has a feature of recording audit trail (edit log) facility which was not enabled throughout the year for all relevant

transactions recorded in the accounting software. Accordingly, we are unable to comment upon whether during the year there was any instance of audit trail feature being tampered with in respect of the general ledger application.

Further, the Company uses three loan management systems and two asset register applications which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature was not enabled for direct changes to data when using certain access rights. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of loan management systems and asset register applications where the audit trail has been enabled and has operated throughout the year at an application level.

Additionally, the audit trail of prior years and current year has been preserved by the Company as per the Statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

Re: Veritas Finance Limited ("the Company")

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property plant and equipment and investment property, except for few class of assets, where fixed assets register is to be updated to include its complete component wise quantitative details and situations thereof.
- (i) (a) (B) The Company has maintained proper records showing full particulars of intangibles assets.
- (i) (b) The Company has a plan program of physically verifying property plant and equipment once in three years. However, such Plant, Property and Equipment have not been completely verified by the management during the year as per the planned program. No material discrepancies noted to the extent assets were physically verified.
- (i) (c) There is no immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), held by the Company and accordingly, the requirement to report on clause 3(i)(c) of the Order is not applicable to the Company.
- (i) (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2025.
- (i) (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The Company's business does not require maintenance of inventories and, accordingly, the requirement to report on clause 3(ii)(a) of the Order is not applicable to the Company.
- (ii) (b) As disclosed in note of 4B to the financial statements, the Company has been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks during the year on the basis of security of current assets of the Company. Based on the records examined by us in the normal course of audit of the financial statements, the quarterly returns/statements filed by the Company with such banks are in agreement with the audited/ unaudited books of accounts of the Company.
- (iii) (a) The Company's principal business is to give loans and is a registered NBFC, accordingly, reporting under clause (iii)(a) is not applicable to the Company.
- (iii) (b) During the year the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans, investments and guarantees to companies, firms, Limited Liability Partnerships or any other parties are not prejudicial to the Company's interest.
- (iii) (c) In respect of loans and advances in the nature of loans, granted by the Company as part of its business of providing loans to customer, the schedule of repayment of principal and payment of interest has been stipulated by the Company. Having regard to the voluminous nature of loan transaction, it is not practicable to furnish entity-wise details of amounts, due dates for repayment or receipt and the extent of delay (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for reporting under this clause) in this Annexure 1, in respect of loans and advances which were not repaid / paid when they were due or were repaid / paid with a delay, in the normal course of lending business

Further, except in respect of 15,784 loans with aggregate exposure of principal and interest of Rs. 35,460.42 lakhs where there were delays or default in repayment of principal and / or interest as at the balance sheet date, in respect of which the Company has disclosure asset classification in note 56 to the financial statements in accordance with Indian Accounting Standard (Ind AS) and the guidelines issued by the Reserve Bank of India, the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest, as applicable.
- (iii) (d) In respect of loans and advances in the nature of loans, the total amount outstanding of loans classified as credit impaired ("Stage 3") is Rs. 16,207.69 Lakhs in respect of 6,651 loans as at March 31, 2025, as disclosed in note 56 to the financial statement. In such instances, in our opinion, reasonable steps have been taken by the Company for recovery of the overdue amount of principal and interest.
- (iii) (e) The Company's principal business is to give loans and is a registered NBFC, accordingly, reporting under clause (iii)(e) is not applicable.
- (iii) (f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or

any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.

- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and sub-section (1) of Section 186 of the Act in respect of the loans and investments made and guarantees and securities provided by it. The provisions of sub-sections (2) to (11) of Section 186 are not applicable to the Company as it is a non-banking financial company registered with the RBI engaged in the business of giving loans.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not specified the maintenance of cost records under Section 148(1) of the Act, for the products/services of the Company. Accordingly, the requirement to report on clause 3(vi) is not applicable to the Company.
- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues applicable to it. Undisputed statutory dues with respect to professional tax have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (vii) (b) There are no dues of goods and services tax, provident fund, employees' state insurance, income tax, sales-tax, service tax, customs duty, excise duty, value added tax, cess, and other statutory dues which have not been deposited on account of any dispute.
- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (ix) (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (ix) (c) Monies raised during the year by the Company by way of term loans was initially invested in liquid investments payable on demand and were ultimately applied for the purpose for which they were raised.
- (ix) (d) On an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.
- (ix) (e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the Company.
- (ix) (f) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on Clause 3(ix)(f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (x) (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) No material fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (xi) (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (xi) (c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of audit procedures.
- (xii) (a) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a) of the Order is not applicable to the Company.
- (xii) (b) The Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(b) of the Order is not applicable to the Company.
- (xii) (c) The Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(c) of the Order is not applicable to the Company.

- (xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (xiv) (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) (a) The Company has registered as required, under section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934)
- (xvi) (b) The Company has not conducted any Non-Banking Financial and Housing Finance activities without obtaining a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- (xvi) (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.
- (xvi) (d) There are no other Companies part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company.
- (xvii) The Company has not incurred cash losses in the current financial year. The Company has not incurred cash losses in the immediately preceding financial year.

TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF VERITAS FINANCE LIMITED (formerly known as VERITAS FINANCE PRIVATE LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Veritas Finance Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and

the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal

financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

1. Corporate Information

Veritas Finance Limited ("the Company") (CIN:U65923TN2015PLC100328) is a Company limited by shares domiciled in India and incorporated on 30 April 2015 under the provisions of the Companies Act, 2013. The Company had received the Certificate of Registration dated 15 October 2015 from Reserve Bank of India ("RBI") to carry on the business of NBFC without accepting public deposits. The debt securities of the Company namely non-convertible debentures are listed on the Bombay Stock Exchange ("BSE") and National Stock Exchange ("NSE"). The Company is engaged in extending credit to micro and small enterprises, typically self-employed businesses and salaried segment for the purpose of their business expansion, working capital, construction of houses, and purchase of used commercial vehicles.

2. Basis of Preparation of Financial Statements

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards "Ind-AS" as specified under Section 133 of the Companies Act, 2013 ('the Act') read with Companies (Indian Accounting Standards) Rules 2015, as amended and in conformity with generally accepted accounting principles in India, other relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are prepared on going concern basis based on ability of the Company to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the Company has considered wide range of information relating to present and likely future conditions including projections of cash flows, profitability and ability of capital resources.

The financial statements were approved for issue in accordance with a resolution of the directors on 30 April 2025.

2.2 Presentation of financial statements

The Balance sheet, the Statement of profit and loss and the Statement of changes in equity are presented in the format prescribed under Division III of Schedule III to the Act and as amended from time to time, for Non-Banking Financial Companies ('NBFC') that are required to comply with Ind AS.

The Company uses accrual basis of accounting in preparation of financial statements (other than statement of cash flows) except in case of significant uncertainties (refer note no. 3.1.C).

The statement of cash flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

The Company presents its balance sheet in order of liquidity. Financial assets and financial liabilities are generally reported on gross basis in the balance sheet. They are offset and reported net only where it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and where the parties also intend to settle on a net basis or to realize the asset and settle the liability simultaneously as permitted under Ind AS. Similarly, the Company offsets income and expenses and reports the same on net basis where the netting off reflects the substance of the transaction or other events permitted by Ind AS.

2.3 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs with two decimals, unless otherwise indicated.

2.4 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Financial assets and liabilities	Fair value / Amortised Cost, as applicable
Liabilities for equity-settled share-based payment arrangements	Fair value
Net defined benefit (asset) / liability	Fair value of plan assets less present value of defined benefit obligations

2.5 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. Information about judgements,

Notes to Financial Statements

for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

estimates and assumptions made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements are set out below:

(i) Business model assessment

Classification and measurement of financial assets depends on the results of business model and the sole payments of principal and interest ("SPPI") test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

(ii) Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.

(iii) Effective Interest Rate ("EIR") method

The Company's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to interest rates and other fee income/ expense that are integral parts of the instrument.

(iv) Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's expected credit loss ("ECL") calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk and subsequently measuring impairment allowances for financial assets on a life time expected credit loss ("LTECL") basis.
- Development of ECL models, including the various formulas and the choice of inputs.
- Determination of associations between macroeconomic scenarios and economic inputs, such as gross domestic products, lending interest rates and collateral values, and the effect on Probability of Default ("PD"), Exposure at Default ("EAD") and Loss Given Default ("LGD").
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into ECL models.

(v) Impairment of non-financial assets

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators. Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation surplus.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

(vi) Share based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Company uses Black Scholes model. The assumptions

and models used for estimating fair value for share-based payment transactions are disclosed in Note 40.

(vii) Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available. The Company estimates the IBR to be the interest rate at which the Company has raised borrowings during the time immediately preceding the lease period.

(viii) Provisions and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, the Company is involved in various litigations, arbitrations and regulatory inspections and proceedings in the ordinary course of its business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the outflow is considered to be probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

These estimates and judgements are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

(ix) Other assumptions and estimation uncertainties

Information about critical judgements in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

3. Summary of Material Accounting Policies

3.1 Revenue Recognition from contracts with customers

The Company recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at transaction price i.e. the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to the customer.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

Revenue recognition for different heads of income is as under:

A. Recognition of interest income on loans

Under Ind AS 109, interest income is recorded using the Effective Interest Rate (EIR) method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial instrument.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in the statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When the financial asset becomes credit impaired, the Company calculated interest income by applying the effective rate of interest to the net amortised cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

B. Interest income on deposits

Interest on bank deposits is accounted on accrual basis on time proportion using effective interest rate.

C. Fee income

Fees income such as instrument bounce charges, delayed payment charges and pre-closure charges (other than fees and costs that are an integral part of EIR) are recognised on a point-in-time basis, and are recorded when realised based on certainty of receipt.

D. Net gain/loss or fair value changes

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

income (FVOCI). The Company recognises gains on fair value change of financial assets measured at FVTPL and realised gains on derecognition of financial asset measured at FVTPL and FVOCI on net basis in profit or loss.

E. Net gain on derecognition of financial instruments under amortised cost category

Gains arising out of direct assignment transactions comprises of the difference between interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the right of excess interest spread (EIS). The future EIS basis the scheduled cash flow on execution of the transaction, discounted at the applicable rate is recorded upfront in the statement of profit and loss.

F. Other income

All items of other income are recognized on an accrual basis, when there is no uncertainty in the ultimate realisation / collection.

G. Taxes

All incomes are recognised net of goods and services tax, wherever applicable.

3.2 Financial instrument – Initial recognition

A. Date of recognition

Debt securities issued and borrowings made are initially recognised when the funds reach the Company. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. Loans are recognised when fund transfers are transferred to the customers' bank accounts.

B. Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at fair value through profit and loss (FVTPL), transaction costs are added to or subtracted from this amount.

C. Measurement categories of financial assets and liabilities

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- i) Amortised cost
- ii) Fair value through other comprehensive income (FVOCI)

- iii) Fair value through profit and loss (FVTPL)

3.3 Financial assets and liabilities

A. Financial assets

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- b) The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- c) How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).
- d) The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Solely payments of principal and interest (SPPI) test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet SPPI test.

Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial asset (for example, if there are repayments of principal or amortisation of the premium / discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

the SPPI assessment, the Company applies judgement and considers relevant factors such as the period for which the interest rate is set.

In contrast, contractual terms that introduce more than the minimum exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows based on the existing business model:

(i) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Since, the loans are held to sale and collect contractual cash flows, they are measured at FVTOCI.

(iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets which do not meet the criteria for categorisation as at amortised cost or as FVOCI, are measured at FVTPL. Subsequent changes in fair value are recognised in the statement of profit and loss. The Company records investments in mutual funds at FVTPL.

B. Financial liabilities

(i) Initial recognition and measurement

All financial liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liability, which are not at fair value through

profit or loss, are adjusted to the fair value on initial recognition.

(ii) Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method.

(iii) Debt securities and other borrowed funds:

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the instrument.

3.4 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its financial assets or liabilities during the year ended 31 March 2025.

3.5 Derecognition of financial assets and liabilities

A. Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes.

When assessing whether or not to derecognise a loan to a customer, amongst others, the Company considers the following factors:

- Introduction of an equity feature
- Change in currency of the loan
- Change in counterparty
- If the modification is such that the instrument would no longer meet the SPPI criterion

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

B. Derecognition of financial instruments other than due to substantial modification of terms and conditions

(i) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the contractual rights to the cash flows from the financial asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount (measured at the date of derecognition) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the statement of profit and loss.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration the Company could be required to pay.

(ii) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the statement of profit and loss.

3.6 Impairment of financial assets

A. Overview of ECL principles

In accordance with Ind AS 109, the Company uses ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL). The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL). The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. When estimating lifetime expected credit loss (LTECLs) for undrawn loan commitments, the Company estimates the expected portion of the loan commitment that will be drawn down over its expected life on which ECL is estimated.

Expected credit losses are measured through a loss allowance at an amount equal to:

- i) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- ii) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

Both LTECLs and 12 months ECLs are calculated on collective basis.

Based on the above, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1:

When loans are first recognised, the Company recognises an allowance based on 12 months ECL. Stage 1 loans includes those loans where there is no significant credit risk observed and also includes facilities where the credit risk has been improved and the loan has been reclassified from stage 2 or stage 3 (if completely regularised to zero DPD for stage 3)

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for life time ECL. Stage 2 loans also include where the loans have been re-structured as per extent RBI Regulations.

Notes to Financial Statements

for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

Stage 3:

Loans considered credit impaired are the loans which are past due for more than 90 days and has not been completely regularised to zero DPD. The Company records an allowance for life time ECL.

B. Calculation of ECLs

The mechanics of ECL calculations are outlined below and the key elements are, as follows:

Probability of Default ('PD'):

PD is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

Exposure at Default ('EAD'):

EAD is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest.

Loss Given Default ('LGD'):

LGD is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. It is usually expressed as a percentage of the EAD. The Company has calculated PD, EAD and LGD to determine impairment loss on the portfolio of loans and discounted back to the default date using customer IRR. At every reporting date, the above calculated PDs, EAD and LGDs are reviewed and changes in the forward-looking estimates are analysed.

Impairment losses and releases are accounted for and disclosed separately from modification losses or gains that are accounted for as an adjustment of the financial asset's gross carrying value.

The mechanics of the ECL method are summarised below:

Stage 1:

The 12 months ECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12 months ECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12 months default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted using customer IRR.

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted using customer IRR.

Significant increase in credit risk:

The Company monitors all financial assets that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Company will measure the loss allowance based on lifetime LTECLs rather than 12mECLs.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Company's historical experience and expert credit assessment including forward looking information.

Stage 3:

For loans considered credit-impaired, the Company recognises the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Credit-impaired financial assets

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;

- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event—instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Company assesses whether debt instruments that are financial assets measured at amortised cost are credit-impaired at each reporting date.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default. The definition of default includes unlikelihood to pay indicators and a back-stop if amounts are overdue for 90 days or more.

C. Forward looking information

In its ECL models, the Company relies on a broad range of forward looking macro parameters and estimated the impact on the default at a given point of time.

3.7 Write-offs

The gross carrying amount of a financial assets is written off when there is no reasonable expectation of recovering the asset. Any subsequent recoveries are credited to impairment on financial instruments in the statement of profit and loss.

The Company writes off all loan accounts which have remained as NPA for a specified period based on its write off policy.

3.8 Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair

value of an asset or a liability, the Company has taken into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 : financial instruments: Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date;

Level 2 : financial instruments: Those where the inputs that are used for valuation are significant and are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads; and

Level 3 : financial instruments –Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations. However, the base models may not fully capture all factors relevant to the valuation of the Company's financial instruments. Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for financial instruments.

Notes to Financial Statements

for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

3.9 Property, plant and equipment ('PPE')

(i) Recognition and measurement

Items of PPE are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Cost of an item of PPE comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

Any gain or loss on disposal of an item of PPE is recognised in statement of profit and loss.

Advances paid towards the acquisition of PPE outstanding at each balance sheet date are classified as capital advances under non-financial assets and the cost of the assets not put to use before such date are disclosed under "Capital work-in-progress".

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation

Depreciation is calculated on cost of items of PPE less their estimated residual values over their estimated useful lives using the straight line method and is generally recognised in the statement of profit and loss.

The Company, based on technical assessment made by the technical expert and management estimate, depreciates certain items of vehicle, furniture and fixtures over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The estimated useful lives of items of property, plant and equipment for the current and comparative years are as follows:

Asset category	Useful life
Furniture and fixtures	5 Years
Office equipment	5 Years
Computers and accessories	3 Years
Vehicles	5 Years

Leasehold improvements are depreciated over the remaining period of lease or 5 years, whichever is lower.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

Property, plant and equipment taken on rent are treated as lease. Refer note 3.14.

3.10 Intangibles

(i) Recognition and measurement

Intangible assets including those acquired by the Company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in the statement of profit and loss as and when it is incurred.

(iii) Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

over their estimated useful lives using the straight line method and is included in depreciation and amortisation in statement of profit and loss.

Asset category	Management estimate of useful life
Computer software	License period or 3 years, whichever is lower

The amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(iv) De-recognition

An intangible asset is derecognised upon disposal (i.e. at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

3.11 Employee benefits

(i) Post – employment benefits

(a) Defined contribution plan

The Company's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

(b) Defined benefit plan

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed by a qualified actuary using the projected unit credit method. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses,

are recognised in OCI. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(ii) Other long-term employee benefit

Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within 12 months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

(iii) Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the year in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- in case of accumulated compensated absences - when employees render services that increase their entitlement of future compensated absences; and
- in case of non-accumulating compensated absences - when the absences occur.

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

(iv) Share based payment

The grant date fair value of equity settled share based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

Equity settled plan:

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. Further details are given in Note 40.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

3.12 Provisions, contingent liabilities and contingent assets

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liability

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or; present obligation that arises from past events where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability are disclosed as contingent liability and not provided for.

Contingent asset

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are neither recognised nor disclosed in the financial statements.

3.13 Leases

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company

Notes to Financial Statements for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid as at the commencement date, discounted using the Company's incremental borrowing rate. The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources that reflects the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable under a residual value guarantee
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in substance fixed lease payment. When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets separately on the face of the balance sheet and lease liability under other financial liabilities.

Short-term leases

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.14 Income tax

Income tax comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case

Notes to Financial Statements

for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

(iii) Goods and services taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services taxes paid except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.15 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in the statement of profit and loss.

3.16 Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of the asset. Other borrowings costs are recognized as an expense in the statement of profit and loss account on an accrual basis using the effective interest method.

3.17 Cash and cash equivalents

Cash and cash equivalents comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.18 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33 Earnings Per Share. Basic earnings per equity share is computed by dividing net profit / loss after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed and disclosed by dividing the net profit/ loss after tax attributable to the equity shareholders for the year after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

3.19 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing, and investing activities of the Company are segregated based on the available information. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions.

3.20 Changes in accounting policies and disclosures

New and amended standards

(i) Ind AS 117 – Insurance contracts

On August 12, 2024, MCA announced the amendments to the Companies (Indian Accounting Standards) Rules, 2015, applicable from August 12, 2024, as below: The amendment outlines scenarios where Ind AS 117 does not apply. These include warranties from manufacturers, dealers, or retailers related to goods or services and employer obligations from employee benefit plans. It also excludes retirement benefit obligations from defined benefit plans and contractual rights or obligations tied to future use of non-financial items, such as certain license fees and variable lease payments. However, the Company has not entered into insurance contracts, hence do not have any impact on the financial statements.

(ii) Accounting for sale and leaseback transaction the books of seller – lessee – Amendments to Ind AS 116

On September 09, 2024, MCA announced the amendments to the Companies (Indian Accounting Standards) Rules, 2015, applicable from September 09, 2024, as below:

The amendment require seller-lessee shall determine 'lease payments' or 'revised lease payments' in a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee. These rules aim to streamline accounting processes and ensure compliance with the updated Ind AS requirements. However, the Company has not entered into sale and lease back transactions, hence do not have any impact on the financial statements.

20.4 Rights, preferences and restrictions attached to each class of shares

A. Equity shares

The Company has a single class of equity shares. Each holder is entitled to one vote per equity share. Accordingly all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time subject to payment of dividend to preference shareholders. Dividends are paid in Indian Rupees. Dividend proposed by the Board of Directors, if any, is subject to the approval of the shareholders at the General Meeting, except in the case of interim dividend.

The holders of partly paid equity shares are entitled to one vote on every partly paid equity share in the same manner as if the shares were fully paid up.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

Accordingly, the Company has recognised provision for income tax and remeasured its net deferred tax asset at concessional rate for the financial year ended 31 March 2025 and year ended 31 March 2024 with effect from 23 October 2020.

34 Employee benefits

34.1 Defined contribution plan

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards provident fund, which is a defined contribution plan. The Company has no obligations other than to make the specified contributions. The contributions are charged to the statement of profit and loss as they accrue. The amount recognized as expense towards contribution to provident fund for the year ended 31 March 2025 aggregated to INR 1,725.40 lakhs (31 March 2024 - INR 1,276.90 lakhs).

34.2 Defined benefit plans

Gratuity

The defined benefit plans expose the Company to risks such as Actuarial risk, Liquidity risk, Market risk, Legislative risk. These are discussed as follows:

Actuarial risk : It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse salary growth experience : Salary hikes that are higher than the assumed salary escalation will result into an increase in obligation at a rate that is higher than expected.

Variability in mortality rates : If actual mortality rates are higher than assumed mortality rate assumption then the gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates : If actual withdrawal rates are higher than assumed withdrawal rate assumption then the gratuity benefit will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

Notes to Financial Statements

for the year ended 31 March 2025

(All amounts are in Indian Rupees in lakhs, except share data and as stated otherwise)

34 Employee benefits (Contd..)

Investment risk : For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

Liquidity risk : Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign / retire from the Company there can be strain on the cash flows.

Market risk : Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in defined benefit obligation of the plan benefits and vice versa. This assumption depends on the yields on the government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Legislative risk : Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act, 1972, thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the defined benefit obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

Details of Actuarial valuation of gratuity pursuant to Ind AS 19:

Impact of change in assumptions on plan liabilities-(loss) / gain	79.75	479.66
Actuarial gain / (loss) on plan assets	(110.44)	(3.70)

e) Sensitivity analysis:

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

Particulars	As at 31 March 2025	As at 31 March 2024
Discount rate		
- 0.5% increase	(24.40)	(15.92)
- 0.5% decrease	17.64	16.28
Future salary growth		
- 0.5% increase	17.04	15.86
- 0.5% decrease	(24.29)	(15.85)
Attrition rate		
- 0.5% increase	(12.68)	(6.37)
- 0.5% decrease	5.67	6.50

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

35 Segment information

An operating segment is a Component of the Company that engages in business activities from which it may earn revenue and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Managing Director and Chief Executive Officer ('MD & CEO') to make decisions about resource to be allocated to the segments and assess their performance. The MD & CEO is considered to be the Chief Operating Decision Maker ('CODM') within the purview of Ind AS 108 Operating Segments.

The CODM considers the entire business of the Company on a holistic basis to make operating decisions and thus there are no segregated reporting segments. The Company is primarily engaged in extending credit to micro and small enterprises typically self-employed business and salaried segment. The CODM of the Company reviews the operating results of the Company as a whole and therefore not more than one reportable segment is required to be disclosed by the Company as envisaged by Ind AS 108 Operating Segments. Accordingly, amounts appearing in these financial statements relates to extending credit to micro and small enterprises typically self-employed business and salaried segment.

The Company does not have any separate geographic segment other than India. As such there are no separate reportable segments as per Ind AS 108 Operating Segments.

No single customer accounts for the revenue, which is equal or more than ten percent of the total revenue of the entity, hence no such segment could be identified.

41 Financial instrument- Transferred financial assets that are not derecognised in their entirety

A. Securitisation

By entering into securitisation arrangement, the Company has not transferred substantially all risks and rewards, hence this does not meet the derecognition criteria as set out in Ind AS 109. As a originator and servicer of the securitised loan receivable accounts, the Company continues to be responsible for collection of receivables from its borrowers and depositing the same in collection and payout account for making scheduled payouts to the investors.

The details of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities:

Particulars	31 March 2025	31 March 2024
Carrying amount of transferred assets measured at amortised cost	97,739.76	57,358.38

Fair value of associated liabilities	78,242.72	48,694.90
Net position at fair value	18,051.14	14,227.77

B. Direct assignment

The Company in the year ended 31 March 2025, transferred certain loans (measured at amortised cost) by way of direct bilateral assignment, as a source of finance.

As per the terms of these deals, since substantial risks and rewards related to these assets were transferred to the buyer, the assets have been de-recognised from the Company's balance sheet. The table below summarises the carrying amount of the derecognised financial assets measured at amortised cost and the gain/(loss) on derecognition, per type of asset.

Particulars	31 March 2025	31 March 2024
Carrying amount of de-recognised financial asset	7,101.48	-
Carrying amount of retained assets at amortised cost	788.74	-
Gain on sale of the de-recognised financial asset	1,587.91	-

42 Capital

The Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the regulator, Reserve Bank of India (RBI). The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI.

The Company has complied in full with all its externally imposed capital requirements over the reporting period.

Capital Management

The primary objectives of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to the changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years.

RBI scale based regulations:

Being a Middle layer NBFC (NBFC-ML), the company's Internal Capital Adequacy Assessment Process (ICAAP) takes a structured approach towards the identification, assessment, and management of all risks that may have a materially adverse impact on our business, financial position, and capital adequacy. The ICAAP framework is guided by the Company's Board approved ICAAP Policy. Also, the Company has enhanced its framework for Enterprise Risk Management (ERM) to a comprehensive and holistic approach to risk management. In this regard, the Company has completed assessment of its risks to ensure availability of adequate capital to cover all risks applicable to the Company for financial year ended 31 March 2024 which include the Stress Test Scenario while assessing ICAAP.

There are no transfers between different levels during the year.

44 Financial risk management objectives and policies

The Company's activities expose it to a variety of financial risks, as listed below apart from various operating and business risks.

Market risk

Credit risk and

Liquidity risk

This note explains the sources of risks arising from financial instruments which the entity is exposed to and how the Company manages the risk.

Risk management framework

The Company's board of directors and risk committee have overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors and risk management council along with the top management are responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor the risks and adherence to limits. 44 Financial risk management objectives and policies (Contd..)

The Company's risk management council oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities or activities in the same geographical region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political and other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

(i) Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates, interest rates and other prices will affect the Company's income or the value of holdings of financial instruments. The Company does not have exposure to currency risk and security price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return.

Interest rate risk

Interest rate risk primarily arises from borrowings with variable rates. The Company's borrowings are carried at amortised cost. The borrowings with fixed rate are therefore not subject to interest rate risk as defined in Ind AS 107 since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The interest rate profile of the Company's interest bearing financial instruments based on loan outstanding is as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Fixed rate instruments		
Financial assets	6,44,899.27	5,16,710.35

(ii) Credit risk

Loans

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's loans, advances and other financial assets. The carrying amount of financial assets represents the maximum credit exposure. The Company has credit policy approved by the Board of Directors which is subject to annual review. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Company has established a credit quality review process to provide early identification of possible changes in the creditworthiness of counterparties. Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a risk rating. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

The disclosure of maximum exposure to credit risk without taking into account any collateral held or other credit enhancements has not been provided for financial assets, as their carrying amount best represent the maximum exposure to credit risk. All the loans provided are secured against mortgage of land and/or building, vehicles except for working capital loans which are unsecured.

Impairment assessment - Expected credit loss ("ECL"):

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purposes of this analysis, the loan receivables are categorised into groups based on days past due. Each group is then assessed for impairment using the ECL model as per the provisions of Ind AS 109 - Financial Instruments.

ECL on financial assets is an unbiased probability weighted amount based out of possible outcomes after considering risk of credit loss even if probability is low. ECL is calculated based on the following components:

- a. Probability of default ("PD")
- b. Loss given default ("LGD")
- c. Exposure at default ("EAD")
- d. Discount factor ("D")

Probability of default:

PD is defined as the probability of whether borrowers will default on their obligations in the future. Historical PD is derived from the internal data which is calibrated with forward looking macroeconomic factors.

For computation of probability of default ("PD"), Z-score transformation model was used to forecast the PD term structure over lifetime of loans. As per given long term PD and current macroeconomic conditions, conditional PD corresponding to current macroeconomic condition is estimated.

Marginal probability:

The PDs derived from the model, are the cumulative PDs, stating that the borrower can default in any of the given years, however to compute the loss for any given year, these cumulative PDs have to be converted to marginal PDs. Marginal PDs is probability that the obligor will default in a given year, conditional on it having survived till the end of the previous year.

Conditional marginal probability:

As per Ind AS 109, expected loss has to be calculated as an unbiased and probability-weighted amount for multiple scenarios.

The probability of default was calculated for 3 scenarios: best, worst and base. This weightage has been decided on best practices and expert judgement. Marginal conditional probability was calculated for all 3 possible scenarios and one conditional PD was arrived as conditional weighted probability.

Staging of loans:

Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments and cases where principal waivers have been made.

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when the loan becomes zero days past due on its contractual obligations. Such cured loans are classified as Stage 1 after such cure has taken place.

As per Ind AS 109, Company assesses whether there is a significant increase in credit risk at the reporting date from the initial recognition. Company has staged the assets based on the day past dues criteria and other market factors which significantly impacts the portfolio.

Days past dues status	Stage	Provisions
Current	Stage 1	12 Months Provision
1-30 Days	Stage 1	12 Months Provision
31-90 Days#	Stage 2	Life time Provision
90+ Days*	Stage 3	Life time Provision

includes loans which have significant increase in credit risk

(*Includes loans which crossed DPD of 90 days, but did not come back to zero DPD at the time of reporting)

Exposure at default

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation.

To calculate the EAD for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 month ECL. However, if a Stage 1 loan that is expected to default in the 12 months from the balance sheet date and is also expected to cure and subsequently default again, then all linked default events are taken into account.

The Company determines EADs by modelling the range of possible exposure outcomes at various points in time, corresponding the multiple scenarios. The PDs are then assigned to each economic scenario based on the outcome of models.

Loss given default

The credit risk assessment is based on a standardised Loss Given Default (LGD) assessment framework that results in a certain LGD rate. The LGD is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. It is usually expressed as a percentage of the EAD. The recoveries are discounted back to the default date using customer IRR. This present value of recovery is used for LGD computation. A recovery rate (RR) computed as the ratio of present value of recovery to the EAD $(1 - RR)$, gives the LGD.

Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12 month ECL or LTECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers the credit risk to be directly proportional to the delinquency status i.e. days past due of the loan under consideration. No further adjustments are made in the PD.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

44 Financial risk management objectives and policies (Contd..)

The Company calculates ECL on a collective basis for all asset classes.

Grouping financial assets measured on a collective basis

The Company calculates ECL on a collective basis for all asset classes. - this point come above combines these exposure into smaller homogeneous portfolios, based on the characteristics of the loans, as described below:

Loan type

Geography

ECL computation

Conditional ECL at DPD pool level was computed with the following method:

Conditional ECL = EAD*conditional PD*LGD

The calculation is based on provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Proportion of expected credit loss provided for across the stage is summarised below:

Particulars	Provisions	As at 31 March 2025	As at 31 March 2024
Stage 1	12 month provision	0.76%	0.42%
Stage 2	Life time provision	20.54%	13.74%
Stage 3	Life time provision	50.52%	53.14%

The loss rates are based on actual credit loss experience over past years. Movement in provision of expected credit loss has been provided in note 7.3, note 9 and note 18.

Cash and bank balances

The Company held cash and cash equivalents with credit worthy banks and financial institutions as at the reporting dates which has been measured on the 12 month expected loss basis. The credit worthiness of such banks and financial institutions are evaluated by the management on an ongoing basis and is considered to be good with low credit risk.

Other financial assets

This balance is primarily constituted by security deposits, other receivables and employee loans. The Company does not expect any losses from non-performance by these counter-parties.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company is bound to comply with the Asset Liability Management guidelines issued by Reserve Bank of India. The Company has Asset Liability Management policy approved by the board and has constituted Asset Liability Committee to oversee the liquidity risk management function of the Company. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's principal sources of liquidity are borrowings, cash and cash equivalents and the cash flow that is generated from operations.

The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. In addition, the Company maintains the following undrawn borrowing facilities :

Particulars	As at 31 March 2025	As at 31 March 2024
Cash credit facilities	10,002.06	9,850.19
Working capital demand loans	-	1,000.00
Term loans	22,646.00	-
Total	32,648.06	10,850.19

The Cash credit facilities may be overdrawn anytime and may be terminated any time without notice.

Tier II Capital (%)	-	-
CRAR (%)	37.82%	41.49%
Amount of subordinated debt raised as Tier-II capital	-	-
Amount raised by issue of Perpetual Debt Instruments	-	-

Note 1 : Tier I capital consists of shareholders' equity and retained earnings. Tier II Capital consists of general provision and loss reserve against stage 1 assets. Credit enhancement relating to securitisation has been adjusted against Tier I and Tier II capital in accordance with RBI circular DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020. Tier 1 and Tier II capital has been reported on the basis of Ind AS financial information. Risk weighted assets represents the weighted sum of company's credit exposures based on their risk as prescribed by RBI guidelines.

Note 2 : As on 31 March 2025 and 31 March 2024, the first loss credit enhancement on securitisation transactions exceeded the provisions for Standard Assets (which forms part of tier II capital). Consequently, the excess amount of first loss credit enhancement has been adjusted against tier 1 capital.

6 Institutional set-up for liquidity risk management:

The Board of Directors of the Company has an overall responsibility and oversight for the management of all the risks, including liquidity risk, to which the Company is exposed to while conducting its business. The Board approves the governance structure, policies, strategy, and the risk limits for the management of liquidity risk.

The Board of Directors approved the constitution of the Risk Management Committee (RMC) for the effective supervision, evaluation, monitoring and review of various aspects and types of risks, including liquidity risk, faced by the Company. The meetings of RMC are held at quarterly intervals and more frequently as warranted from time to time. Further, the Board of Directors also approves constitution of Asset Liability Committee (ALCO), which functions as the strategic decision-making body for the asset-liability management of the Company from risk return perspective and within the risk appetite approved by the Board.

The main objective of ALCO is to assist the Board and RMC in effective discharge of the responsibilities of asset-liability management, market risk management, liquidity, and interest rate risk management and to ensure adherence to risk tolerance/limits set up by the Board. ALCO provides guidance and directions in terms of interest rate, liquidity, funding

55.01 Liquidity Coverage Ratio

As per the Guidelines on Liquidity Risk Management Framework for NBFCs issued by RBI vide notification no. RBI/2019-20/88 DOR.NBFC (PD) CC. No.102/03.10.001/2019-20, all non-deposit taking NBFCs with asset size more than INR 5,000 crores are required to maintain Liquidity Coverage Ratio (LCR) from December 1, 2022, with the minimum LCR to be 60%, progressively increasing, till it reaches the required level of 100%, by December 1, 2024.

The Company has implemented the guidelines on Liquidity Risk Management Framework prescribed by the Reserve Bank of India requiring maintenance of Liquidity Coverage Ratio (LCR), which aim to ensure that an NBFC maintains an adequate level of unencumbered High Quality Liquid Assets (HQLA) that can be converted into cash to meet its liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario. It ensures a sound and robust liquidity risk management system by maintaining sufficient liquidity through inclusion of a cushion of unencumbered, high quality liquid asset to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The Board of Directors has delegated responsibility of balance sheet Liquidity Risk Management to the Asset Liability Committee as per the ALCO policy of the Company.

Qualitative information:

Main drivers to the LCR numbers:

All significant outflows and inflows determined in accordance with RBI guidelines are included in the prescribed LCR computation.

Composition of HQLA:

Notes:

- The average weighted and unweighted amounts are calculated based on simple average of daily observations. The weightage factor applied to compute weighted average value is constant for all the quarters.
- Prior to introduction of LCR framework, the company used to maintain a substantial share of its liquidity in form of fixed deposits with banks and investment in mutual funds. Post the introduction of LCR framework, the Company has consciously worked towards increasing its investment in High Quality Liquid Assets (HQLA) as per the RBI guidelines.
- Weighted values have been calculated after the application of respective haircuts (for HQLA) and stress factors on inflow and outflow.
- The disclosures above are based on the information and records maintained and compiled by the management and have been relied upon by the auditors.
- RBI has mandated minimum liquidity coverage ratio (LCR) of 60% to be maintained by December 2021, which is to be gradually increased to 100% by December 2024. The Company has LCR of 148.95% as of March 31, 2025 as against the LCR the rate mandated by RBI.
